Minimum: \$10,000 (nonqualified and qualified). Maximum: \$1 million; total purchase payments greater than \$1 million require Pacific Life home-office approval in advance.

Age Guidelines

Maximum Annuitant/Owner Issue Age: 85
Maximum Annuitization Age: 95

Guaranteed Terms

Guaranteed interest-rate terms may range from one to 10 years. Current terms range from five to 10 years (subject to change). Only one guaranteed interest-rate term may be selected per contract. All initial guaranteed terms may not be available at all times.

Maturity of Guaranteed Terms

At the end of the guaranteed term, you may either:

- Renew to the same guaranteed term or transfer the contract value to a different available guaranteed term at the current guaranteed interest rate. The renewal rate will never be lower than the minimum guaranteed interest rate stated in the contract.
- Withdraw a partial amount or the entire contract value without charges.

You have 30 days after the end of a guaranteed term to make an election, and during this time, no market value adjustment (MVA) will apply. If no election is made, the contract value will automatically transfer into the same guaranteed term, if available. There are two exceptions when determining the renewal guaranteed term:

- **Availability:** If the current guaranteed term is not available, the contract value will automatically transfer into the shortest guaranteed term available.
- **Annuity Date:** If the same guaranteed term exceeds the annuity date, the contract value will automatically transfer into the next shortest term that does not exceed the annuity date.

The new guaranteed term will receive the current interest rate, and the withdrawal charge schedule will reset (subject to state variations).

All guarantees are subject to the claims-paying ability and financial strength of the issuing insurance company. Insurance products are issued by Pacific Life Insurance Company in all states except New York and in New York by Pacific Life & Annuity Company. Product availability and features may vary by state.

**No bank guarantee • Not a deposit • May lose value
Not FDIC/NCUA insured • Not insured by any federal government agency**

Withdrawal Charges and Fees**Withdrawal Charges**

Seven years, or the length of the guaranteed term if shorter than seven years.

	Current Year of the Selected Guaranteed Term							
	1	2	3	4	5	6	7	8+
Charge per Withdrawal	7%	6%	5%	4%	3%	2%	1%	0%

When a guaranteed term matures and you renew into a new guaranteed term, the withdrawal charge schedule will reset. No annual contract, mortality & expense, and administration fees.

Guaranteed Payout Options**Annuitization**

Fixed annuitization only. Available one year after issue. Life Only, Life with Period Certain (5–30 years),¹ Joint and Survivor Life, or Period Certain Only (up to 30 years).¹ Payouts available monthly, quarterly, semiannually, or annually.

Death Benefit

If death occurs before annuity income payments begin, a death benefit equal to the contract value is paid upon the death of the first owner or last annuitant.

Withdrawals Market Value Adjustments (MVAs)

Withdrawals and contract values annuitized before the end of a guaranteed term, in excess of the previous 12 months' credited interest, may be subject to an MVA and withdrawal charge. The MVA is based on a formula designed to respond to interest-rate movements. As a general rule, if interest rates have stayed the same or risen since the beginning of the existing guaranteed term, the MVA can reduce the amount withdrawn. If interest rates have fallen, the MVA can increase the amount withdrawn, up to a specified maximum. In no event will the MVA cause the withdrawal amount to be less than the initial premium payment accumulated at the guaranteed minimum interest rate stated in the contract, minus prior withdrawals and any applicable withdrawal charges. There is no MVA on withdrawals made at the end of a guaranteed term.

Withdrawals without Charge

Withdrawals of interest credited over the previous 12 months can be taken without charge or an MVA.

In addition, withdrawal charges and the MVA will be waived for:

- Required minimum distribution (RMD) withdrawals (only if calculated by Pacific Life).
- Withdrawals after the first contract year if you are diagnosed with a terminal illness (life expectancy of 12 months or fewer).
- Withdrawals after the first contract year if you are confined to an accredited nursing home for 60 days or more, as long as the confinement to a nursing home began after the contract was issued (except in California).
- Death benefit proceeds.
- Annuity income payments (available after the first year; an MVA may apply).
- Surrenders on the maximum annuitization date.

Annuity withdrawals and other distributions of taxable amounts, including death benefit payouts, will be subject to ordinary income tax. For nonqualified contracts, an additional 3.8% federal tax may apply on net investment income. If withdrawals and other distributions are taken prior to age 59½, an additional 10% federal tax may apply. A withdrawal charge and a market value adjustment (MVA) also may apply. Withdrawals may reduce the value of the death benefit.

Earnings Sweep

During the guaranteed term, you may withdraw amounts up to the interest credited during the previous 12 months without a withdrawal charge or MVA. You must withdraw a minimum of \$250. An earnings sweep may begin one month after the contract issue date.

¹For qualified contracts, the maximum length of time for the Period Certain options may be less than 30 years, if necessary, to comply with required minimum distribution (RMD) regulations for annuities.
