

# PACIFIC INDEX FOUNDATION® 2

A Deferred, Fixed Indexed Annuity

## Purchase Payments

Limited-premium, fixed indexed annuity. 1035 exchange/transfer requests must be submitted with the application and the funds received within 60 days after contract issue. Additional cash purchase payments are permitted within the first 60 days after contract issue, up to a maximum of \$100,000. Minimum: \$25,000 (nonqualified and qualified). Maximum: \$2 million; total purchase payments greater than \$2 million require Pacific Life home-office approval in advance.

## Age Guidelines

Maximum Annuitant/Owner Issue Age: 85

Maximum Annuitization Age: 110

Please speak with your financial professional about specific age limitations.

## Withdrawal Charge Periods

Select one of three withdrawal charge periods:

- Five, seven, or nine years.
- Set at contract issue.
- Only one withdrawal charge period may be selected per contract.

## Withdrawal Charges & Fees

No annual contract, mortality & expense, or administrative fees.

Contract Year	1	2	3	4	5	6	7	8	9	10+
<b>5 Years</b>	8%	8%	7%	6%	5%	0%				
<b>7 Years</b>	8%	8%	7%	6%	5%	4%	3%	0%		
<b>9 Years</b>	8%	8%	7%	6%	5%	4%	3%	2%	1%	0%

All withdrawal charge periods may not be available at all times, at all firms, or in all states.

Withdrawal charges apply only during the withdrawal charge period when the amounts withdrawn are more than those discussed in the "Withdrawals without Charge" section.

All guarantees are subject to the claims-paying ability and financial strength of the issuing insurance company.

## Interest Breakpoints

Breakpoints apply for all Interest-Crediting Options and are based on the initial purchase payment:

- Less than \$100,000
- \$100,000 or more

If a subsequent purchase payment causes the total purchase payments to exceed \$100,000, the higher breakpoint will be used in determining the interest credited during the initial guaranteed period. Withdrawals during the initial guaranteed period will not reduce the breakpoint used to determine interest credited during the initial guaranteed period. After the initial guaranteed period, a higher breakpoint will be used to determine interest credited for renewal terms only if the value at the contract anniversary exceeds \$100,000.

## Initial Guaranteed Period Options

At contract issue, you must choose the guaranteed period that determines how long your initial rates are guaranteed. There are two options:

**1. Lock in rates for your chosen withdrawal charge period:** 5, 7, or 9 years.

**2. Lock in rates for one year.** Rates are guaranteed for one year and are subject to change upon annual renewal.

You must allocate the entire contract value to one of the above options. The initial guaranteed period applies to all interest-crediting options you choose and determines your initial rates. Once the contract is issued, you may not change guarantees. At the end of the withdrawal charge period, all rates renew annually and may decrease or increase, regardless of the initial guaranteed period. Renewal rates will never be lower than the minimum guaranteed rates stated in the contract.

## Interest-Crediting Options

You can allocate among one or more options:

### Index-Linked Options

Indexes Available	Crediting Options Available
S&P 500®	Point-to-Point with Cap Rate Point-to-Point with Performance-Triggered Rate
Invesco QQQ ETF	Point-to-Point with Cap Rate Point-to-Point with Performance-Triggered Rate
iShares® Russell 2000 ETF	Point-to-Point with Cap Rate Point-to-Point with Performance-Triggered Rate
MSCI EAFE®	Point-to-Point with Cap Rate Point-to-Point with Performance-Triggered Rate
Barclays Large Cap Intraday VC10	Point-to-Point with Participation Rate
SG Nasdaq-100 Edge VC10	Point-to-Point with Participation Rate

Interest may be credited at the end of an index term depending on the amount of change in an index price. Interest is credited after the index return is adjusted by the selected crediting option. If there are additional purchase payments within the first 60 days after contract issue, interest will be credited proportionately based on the index return from the time the additional purchase payment is received to the end of the term. This period may be less than the time frames listed above.

The initial caps, participation rates, and performance-triggered rates are set at issue based on the length of the withdrawal charge period and guaranteed depending on the initial guaranteed period chosen.

Pacific Life determines, at its discretion, guaranteed rates, renewal caps, performance-triggered rates, and participation rates in excess of the minimum guaranteed in the contract.

All options may not be available at all firms.

---

**Interest-Crediting Options**  
**(Continued)**

**Fixed Account Option**

Interest is credited daily, and the initial rate is declared at contract issue. Fixed-interest rates will depend on the initial guaranteed period and withdrawal charge period chosen. After the initial guaranteed period, renewal fixed-interest rates will be declared annually.

---

**Transfers**

- Effective on a contract anniversary.
- Transfer the value from the Fixed Account Option and expired index terms to any available Index-Linked Options and/or the Fixed Account Option.

---

**Guaranteed Minimum Surrender Value**

You are guaranteed to receive the greater of the contract value (minus applicable optional benefit charges, and/or withdrawal charges) or the Guaranteed Minimum Surrender Value.

- The Guaranteed Minimum Surrender Value is equal to 87.5% of purchase payments minus prior withdrawals, accumulated at the applicable nonforfeiture rate, which is set at contract issue.
- The value is calculated at full withdrawal, death, or annuitization.
- After the withdrawal charge period, new nonforfeiture rates for the contract will be declared on each subsequent contract anniversary. The nonforfeiture rates guarantee will comply with applicable law in the state where the contract is issued for delivery.

---

**Withdrawals**

**Withdrawals without Charge**

Withdrawals are permitted 30 days after contract issue. In the first contract year, 10% of the total purchase payments are available without a withdrawal charge. In subsequent years, 10% of the previous contract anniversary's contract value is available annually without a withdrawal charge.

In addition, the withdrawal charge will be waived for:

- Required minimum distribution (RMD) withdrawals (only if calculated by Pacific Life Insurance Company).
- Annuity income payments (available after the first contract year).
- Beneficiary benefit proceeds.

Note: For Index-Linked Options, no interest is earned or credited on amounts withdrawn prior to the end of an index term.

Annuity withdrawals and other distributions of taxable amounts, including beneficiary benefit payouts, will be subject to ordinary income tax. For nonqualified contracts, an additional 3.8% federal tax may apply on net investment income. If withdrawals and other distributions are taken prior to age 59½, an additional 10% federal income tax may apply. A withdrawal charge also may apply. Withdrawals will reduce the contract value, the value of the beneficiary benefits, the Guaranteed Minimum Surrender Value, and also may reduce the value of any optional benefits.

---

---

**Annuity Income Options**

- The amount annuitized is equal to the greater of the contract value or the Guaranteed Minimum Surrender Value.
- Pro rata index-linked interest is credited to the contract value upon annuitization.
- Available one year after contract issue.

Payout options available:

- Life Only
- Joint and Survivor Life
- Period Certain (up to 30 years<sup>1</sup>)
- Single Life or Joint Life with Period Certain (up to 30 years<sup>1</sup>)
- Single Life or Joint Life with Cash Refund
- Single Life or Joint Life with Installment Refund

---

**Standard Beneficiary Benefit**

The annuity provides the standard beneficiary benefit that can help protect an amount for your beneficiaries and may avoid the cost and delays of probate. If death occurs before annuity income payments begin, the standard beneficiary benefit is equal to the greater of the contract value or the Guaranteed Minimum Surrender Value and is paid upon the death of the first owner or last annuitant. Pro rata index-linked interest is credited to the contract value on the Notice Date (the date Pacific Life receives the beneficiary benefit claim in good order).

---

<sup>1</sup>For qualified contracts, the maximum length of time for the Period Certain options may be less than 30 years, if necessary, to comply with required minimum distribution (RMD) regulations for annuities.
