

ENHANCED LIFETIME INCOME BENEFIT 3

Optional Benefit Available with Pacific Index Foundation® Fixed Indexed Annuity

PREDICTABLE, LIFETIME INCOME NO MATTER HOW MARKETS PERFORM

A fixed indexed annuity is a long-term contract that can help you meet your financial objectives in retirement by protecting principal and offering growth potential. It also provides ways to generate guaranteed lifetime income.

Enhanced Lifetime Income Benefit 3, available with Pacific Index Foundation fixed indexed annuity for an additional annual cost, is a guaranteed minimum withdrawal benefit that can provide:

- Guaranteed lifetime withdrawals beginning at age 59½.
- Opportunities to increase your retirement income.
- Protected lifetime income for both you and your spouse with the election of the Joint Life option.

Enhanced Lifetime Income Benefit 3 must be elected within 60 days of contract issue, subject to availability.

Converting the contract to annuity income payments will terminate the benefit. All guarantees are subject to the claims-paying ability and financial strength of the issuing insurance company.

Underlying Strength of Pacific Life

It's essential for you to choose a strong and stable company that can help you achieve your future income needs. Since 1868, individuals and their families have relied on the strength of Pacific Life to help protect their financial security.

- Pacific Life Insurance Company is organized under a mutual holding company structure and operates for the benefit of its policyholders and contract owners.
- We have achieved ongoing recognition for high-quality service standards.
- We offer products that address market environments during all stages of your life.
- Pacific Life is designated as one of the 2022 World's Most Ethical Companies^{®2} by the Ethisphere Institute, a global leader in defining and advancing the standards of ethical business practices.
- We maintain strong financial-strength ratings from major independent rating agencies.

Ratings may change. For more information and current financial-strength ratings, please visit PacificLife.com.

¹Recipient of multiple DALBAR Service Awards since 1997. Refer to www.DALBAR.com for more information regarding awards, certifications, and rankings.

While ratings can be objective indicators of an insurance company's financial strength and can provide a relative measure to help select among insurance companies, they are not guarantees of the future financial strength and/or claims-paying ability of a company. The independent third party from which this annuity is purchased, including the broker/dealer, the insurance agency from which this annuity is purchased, and any affiliates of those entities, make no representations regarding the quality of the analysis conducted by the rating agencies. The rating agencies are not affiliated with the above-mentioned entities nor were they involved in any rating agency's analysis of the insurance companies.

I

TWO WAYS TO INCREASE YOUR LIFETIME ANNUAL WITHDRAWAL AMOUNT

The Lifetime Annual Withdrawal Amount is the amount of money you are able to withdraw each year. This amount is determined by the Lifetime Annual Withdrawal Percentage, which is based on the age you decide to take your first withdrawal (at or after age 59½) and whether you elect the Single Life or Joint Life option. See the table on the next page for Lifetime Annual Withdrawal Percentages.

You can increase your Lifetime Annual Withdrawal Amount in two ways: defer withdrawals or lock in earned interest through a reset.

Defer Withdrawals

The longer you delay taking withdrawals, the more potential income you can receive. On each contract anniversary, an 8% Annual Credit will be added to your Protected Payment Base for up to 10 years. See the chart on the next page for an example of how the credit works.

If a withdrawal up to the Lifetime Annual Withdrawal Amount is taken during the 10-year Annual Credit period (including a required minimum distribution (RMD) withdrawal), you will not receive the credit in that year. However, the credit will be applied in future years during the remainder of the 10-year Annual Credit period in any year you do not take a withdrawal.

Lock In Earned Interest through a Reset

The reset feature is another opportunity to increase the amount you are able to withdraw each year.

Automatic Reset

Whether or not you are taking withdrawals, on each contract anniversary, if your contract value is higher than the Protected Payment Base (including any applicable credits), the Protected Payment Base will automatically increase to match the contract value. Your Lifetime Annual Withdrawal Amount will automatically be recalculated based on this higher Protected Payment Base.

If a reset occurs, the 8% Annual Credit is recalculated on the new Protected Payment Base, and the 10-year Annual Credit period will restart.

You will be subject to the Enhanced Lifetime Income Benefit 3 charge in effect at the time of the reset (up to a maximum of 1.50%). You can cancel future automatic resets by notifying Pacific Life. If annual interest rates or caps on your fixed indexed annuity are less than 8%, generally, automatic resets will not be triggered.

Owner-Elected Reset

You may elect a reset whether the contract value is higher or lower than the Protected Payment Base. If you choose a reset when the contract value is lower, there will be a reduction in the Protected Payment Base. However, a reset will start a new 10-year Annual Credit period. If you are in a higher age band (see the table on the next page) when you elect the reset, you will receive the higher Lifetime Annual Withdrawal Percentage and may be able to increase your Lifetime Annual Withdrawal Amount. Speak with your financial professional prior to initiating an owner-elected reset.

AN 8% ANNUAL CREDIT TO HELP MAXIMIZE INCOME POTENTIAL

As discussed on the previous page, for each year you defer taking withdrawals for a 10-year period, your Protected Payment Base can increase annually by 8%. The 8% Annual Credit increases your Protected Payment Base, but it is not added to your contract value and is not a rate of return or growth rate.

How the Credit Works

This hypothetical example demonstrates how the 8% Annual Credit increases the Protected Payment Base and the payment you may receive.

Assumptions

- A \$100,000 purchase payment
- No withdrawals made in the first 10 years
- An annual credit of \$8,000 (\$100,000 x 8%)

How much annual income can you receive for life after 10 years?

Contract Anniversary	Protected Payment Base with 8% Annual Credit			
0	\$100,000			
8.00%	\$108,000			
8.00%	\$116,000			
8.00%	\$124,000			
8.00%	\$132,000			
8.00%	\$140,000			
8.00%	\$148,000			
8.00%	\$156,000			
8.00%	\$164,000			
8.00%	\$172,000			
8.00%	\$180,000			
	•			

Age at First
Withdrawal

Lifetime Annual Withdrawal Percentage (Percentage of \$180,000 Protected Payment Base)

(At or After Age 59½)		Single Life		Joint Life	
Age Band I	59½-64	5.00%	\$9,000.00	4.50%	\$8,100.00
Age Band 2	65-69	5.50%	\$9,900.00	5.00%	\$9,000.00
Age Band 3	70–79	6.00%	\$10,800.00	5.50%	\$9,900.00
Age Band 4	80 and Older	7.00%	\$12,600.00	6.50%	\$11,700.00

Hypothetical example. For illustrative purposes only.

LIFETIME INCOME— FOR BOTH YOU AND YOUR SPOUSE

With Enhanced Lifetime Income Benefit 3, withdrawals are guaranteed for life, regardless of whether or not you earn interest on your fixed indexed annuity contract. Additionally, you can provide lifetime income for both you and your spouse if you elect the Joint Life option.

Single Life and Joint Life Options

- The current annual charge for both the Single Life and Joint Life options is 1.00% of the Protected Payment Base. The charge is deducted from the contract value on each contract anniversary whether or not interest has been credited in the last contract year. Upon a reset, you will be subject to the charge in effect at the time of the reset, up to a maximum of 1.50%.
- With the Single Life option, if the owner or sole annuitant dies, Enhanced Lifetime Income Benefit 3 terminates.
- With the Joint Life option, joint owners must be spouses, or a single owner with the spouse as the sole primary beneficiary. The surviving spouse must continue the contract to receive lifetime benefits. The youngest spouse's age is used to determine the Lifetime Annual Withdrawal Percentage. Enhanced Lifetime Income Benefit 3 terminates at the death of both spouses.
- With the Joint Life option, changes in beneficiary and marital status, including the dissolution of marriage, may terminate the benefit.
- With the Single Life or Joint Life options, a change in ownership may terminate the benefit.

FREQUENTLY ASKED QUESTIONS

What happens if I take withdrawals before age 59½?

Enhanced Lifetime Income Benefit 3 withdrawals cannot begin until age 59½, so any withdrawals prior to that will reduce the Protected Payment Base and will end the 8% Annual Credit. If a withdrawal prior to age 59½ reduces the contract value to zero. Enhanced Lifetime Income Benefit 3 will terminate.

What happens if I withdraw more than the Lifetime Annual Withdrawal Amount?

If you withdraw more than the Lifetime Annual Withdrawal Amount annually (unless it is an RMD withdrawal through Pacific Life's RMD program), both your future Enhanced Lifetime Income Benefit 3 withdrawals and the Protected Payment Base will be reduced on a proportionate basis for the withdrawal amount that is in excess of the Lifetime Annual Withdrawal Amount. The 8% Annual Credit also would end. If a withdrawal in excess of the Lifetime Annual Withdrawal Amount reduces the contract value to zero, Enhanced Lifetime Income Benefit 3 will terminate.

If there is any change to the Internal Revenue Code or Treasury regulations related to RMDs, Pacific Life reserves the right to modify or eliminate the treatment of RMD withdrawals, but only to the extent necessary to comply with the change to the rules.

What is the difference between lifetime withdrawals through Enhanced Lifetime Income Benefit 3 and annuity income payments?

Enhanced Lifetime Income Benefit 3 payments are withdrawals, not annuity payments. Annuity payments generally receive a more favorable tax treatment than other withdrawals. All withdrawals from your fixed indexed annuity contract, including Enhanced Lifetime Income Benefit 3 withdrawals and other distributions of taxable amounts, including beneficiary benefit payouts, will be subject to ordinary income tax. For nonqualified contracts, an additional 3.8% federal tax may apply on net investment income. Because annuities are designed for retirement, if withdrawals and other distributions are taken prior to age 59½, an additional 10% federal income tax may apply. A withdrawal charge and market value adjustment (MVA) also may apply. Withdrawals will reduce the contract value, the value of the beneficiary benefits, the Guaranteed Minimum Surrender Value, and also may reduce the value of any optional benefits.

What happens if I convert the contract to annuity income payments?

Converting the contract to annuity income payments will terminate the benefit.

The contract must be converted to annuity income payments by the maximum annuity date (typically, age 95). At the maximum annuity date, if you choose a Life Only fixed annuity payout option (or Joint Life Only fixed annuity payout option if you have the Joint Life option), you will receive the greater of a payment based on your contract value or your Lifetime Annual Withdrawal Amount as an annuity income payment.

A beneficiary benefit is referred to as a death benefit in the contract summary.

Ask your financial professional if Enhanced Lifetime Income Benefit 3 may be appropriate for your financial goals. PacificLife.com

Pacific Index Foundation is not available in New York.

Please refer to the *Pacific Index Foundation Client Guide* and Contract Summary for more information. Not all products, features, or riders are available at all broker/dealer firms. Only one optional benefit can be purchased with a fixed indexed annuity.

Pacific Life, its distributors, and respective representatives do not provide tax, accounting, or legal advice. Any taxpayer should seek advice based on the taxpayer's particular circumstances from an independent tax advisor or attorney.

Pacific Life is a product provider. It is not a fiduciary and therefore does not give advice or make recommendations regarding insurance or investment products.

Required minimum distributions (RMDs) from IRAs and qualified plans are withdrawals for purposes of optional withdrawal benefits. RMDs taken under Pacific Life's automated RMD program are considered compliant withdrawals if they are the only withdrawals in that contract year and are in compliance with the rider guidelines. If RMD amounts are not calculated and withdrawn under this program and the withdrawal amounts are greater than the rider percentage limits, future income benefits and the guaranteed protected amount may be reduced.

Pacific Index Foundation is named "Limited Premium Deferred Fixed Annuity Contract with Index-Linked Interest Options" in the contract. Enhanced Lifetime Income Benefit 3 is named, "Guaranteed Withdrawal Benefit XVIII Rider—Single Life" or "Guaranteed Withdrawal Benefit XVIII Rider—Joint Life" in the contract rider.

Insurance product and rider guarantees, including optional benefits and any fixed crediting rates or annuity payout rates, are backed by the financial strength and claims-paying ability of the issuing insurance company. They are not backed by the independent third party from which this annuity is purchased, including the broker/dealer, by the insurance agency from which this annuity is purchased, or any affiliates of those entities, and none makes any representations or guarantees regarding the claims-paying ability of the issuing insurance company.

Pacific Life Insurance Company (Newport Beach, CA) is licensed to issue insurance products in all states except New York. Product availability and features may vary by state.
