■ **DEAR CONTRACT OWNER**

At Prudential, our primary objective is to help investors achieve and maintain long-term financial success. This Prudential Series Fund annual report outlines our efforts to achieve this goal. We hope you find it informative and useful.

Prudential has been building on a heritage of success for more than 135 years. We believe the array of our products provides a highly attractive value proposition to clients like you who are focused on financial security.

Your financial professional is the best resource to help you make the most informed investment decisions. Together, you can build a diversified investment portfolio that aligns with your long-term financial goals. Please keep in mind that diversification and asset allocation strategies do not assure a profit or protect against loss in declining markets.

Thank you for selecting Prudential as one of your financial partners. We value your trust and appreciate the opportunity to help you achieve financial security.

Sincerely,

A handwritten signature in black ink, appearing to read 'Timothy S. Cronin', with a long horizontal flourish extending to the right.

Timothy S. Cronin
President,
The Prudential Series Fund

January 31, 2018

Equity Market Overview

Stocks markets around the world rallied in 2017 bolstered by reports of accelerating global economic growth. Equities in emerging markets posted the best returns. In the United States, the S&P 500® Index rose 21.82% and generated positive returns every month of the period.

Market and economic highlights

U.S. stocks performed well in the first quarter driven by investors' hopes for tax cuts, a rise in consumer spending and corporate profits, and regulatory reforms. Positive economic news abroad also increased appetite for equities. In March, the Federal Reserve raised its target for the short-term federal funds rate by 0.25%, and would proceed to do so again in June and December. Central banks in several other countries scaled back their quantitative-easing efforts.

Second-quarter corporate profits were strong. In August, stocks retreated in reaction to mounting tensions between the U.S. and North Korea, but the pullback was short-lived. During the fourth quarter, stocks advanced again on positive corporate earnings, and in anticipation of tax reform. Corporate earnings rose at double-digit levels in Europe and Japan in the third quarter.

In late December, President Donald J. Trump signed the Tax Cuts and Jobs Act into law, reducing the corporate tax rate from 35% to 21% (effective 2018).

Following a sluggish first quarter, Gross Domestic Product (GDP) growth rose above 3% in the second and third quarters, yet inflation remained tame. The unemployment rate fell to 4.1% — its lowest level since 2000, and investment by businesses picked up. Unemployment also dropped in many other nations including Germany, the United Kingdom, and Japan. The U.S. dollar closed the year sharply lower against other major currencies.

Information technology stocks soar

For the 12 months, nine of the S&P 500's 11 sectors turned in double-digit returns, and only two ended in negative territory. Information technology led with a return of 38.83%. Demand for cyclical stocks was strong. The materials sector was the second-best performer, rising 23.84%, followed by consumer discretionary, up 22.98%. Next in line was the financial sector, which gained 22.18%. Rising interest rates, which increase lenders' profit margins; solid earnings, and a loosening of regulations boosted demand for this group. Investors snapped up health care stocks, which rose 22.08% in anticipation of health care reform. The industrials and consumer staples sectors followed, returning 21.03% and 13.49%, respectively.

Despite their favorable dividends, the defensive utilities and real estate sectors lagged but returned an impressive 12.11% and 10.85%, respectively. Telecommunications stocks, facing competitive pressures from cable companies, ended down 1.25%. Energy stocks finished down 1.01%. Their prices fell sharply during the first half of the year as oil prices tumbled, although both the sector and oil prices rebounded later in the year.

Growth and large-cap stocks outperform in Russell Indexes

The Russell US indexes, which measure equity performance with respect to stock-specific styles (value and growth) and capitalization levels (small-, mid-, and large-cap), ended 2017 higher. For the year, the Russell 1000 Growth Index returned 30.21%, more than doubling the Russell 1000 Value Index's 13.66% return. Growth outperformed due in part to huge gains of large-cap tech stocks. By contrast, the energy sector detracted from value stocks' performance. Large-cap equities, as measured by the Russell 1000® Index, gained 21.69%. The sector was bolstered by a pickup in economic activity abroad, U.S. dollar weakness, and rising short-term rates. The Russell Midcap® Index returned 18.52%. Small-caps, as measured by the Russell 2000® Index, returned 14.65%.

Emerging markets lead international markets

Equities trading in emerging markets, particularly technology and financial issues, soared on reports of improving earnings and fundamentals. The MSCI Emerging Markets Index, net of dividends, rose 37.28% in U.S. dollars and 30.55% in local-currency terms. In U.S. dollars, Far East and Asian stocks rallied 43.53% and 42.83%, respectively. The Brazil, Russia, India, and China (BRIC) group advanced 41.75%, EMEA returned 24.54%. Latin America rose 23.74%, and Europe returned 20.54%.

On a country basis, Poland led with a return of 54.72%. China followed posting a return of 54.07%, and South Korea advanced 47.30%. Conversely, Pakistan, in contrast to its stellar performance in 2016, finished down 24.44%. Qatar dropped 11.51%.

The MSCI-EAFE Index, which measures the performance of developed markets excluding the United States and Canada, returned (net of dividends) 25.03% in U.S. dollars and 15.23% in local-currency terms. In U.S. dollars, the best-performing markets were Austria, which returned 58.31%; Hong Kong, which rose 36.17%, and Denmark, which advanced 34.69%.

In the Pacific region, Singapore followed Hong Kong with a gain of 35.57%. Japan rose 23.99% driven by reports of explosive corporate earnings, increased trade, and monetary stimulus. Eurozone equities benefitted from a rise in consumer confidence and diminishing political uncertainty. "Heavy weights" in this group that performed well included France, which rose 28.75%; Italy, which advanced 28.43%; Germany, which returned 27.70%; and the United Kingdom, which gained 22.30%. Israel bucked the trend, returning merely 2.06%.

Report of the Investment Manager - As of December 31, 2017 (Unaudited)

For the year ended December 31, 2017 the SP International Growth Portfolio Class I shares returned 35.81% and the Class II shares returned 35.42%. The net assets of the Portfolio at December 31, 2017 were \$84.4 million.

The Portfolio's investment objective is long-term growth of capital. The Portfolio is subadvised by William Blair & Company, Jennison Associates LLC, and Neuberger Berman Management LLC.

What were market conditions during the reporting period?

For 2017, the MSCI EAFE Index generated a positive return, with most of the gains driven by the strength of the euro and the British pound. The dollar weakened during the year, as the U.S. Federal Reserve's interest rate tightening remained more measured, Europe's economic outlook improved, and geopolitical concerns increased. Given the improvement in the global economy, cyclical sectors such as information technology, materials, and industrials outperformed more defensive, dividend-paying sectors such as utilities, health care, and telecommunications. In addition, the market tended to favor earnings growth over valuations, as investors became more comfortable with economic prospects going forward.

What strategies or holdings affected the Portfolio's performance?

Stock selection drove returns, especially within the consumer discretionary and information technology sectors. In the growth-oriented rally, many of the stocks selected by the Portfolio's subadvisers in these sectors advanced. From a country perspective, stocks domiciled in emerging market countries had a large positive impact. William Blair and Jennison routinely seek out stocks from these countries, as they have some of the faster-growing companies globally.

Since market reversals were relatively tame in 2017, price momentum was also a key component to positive returns. William Blair incorporates momentum as part of its process. In addition, each subadvisor's higher exposure to earnings growth enhanced relative returns. Since the Portfolio's focus is on earnings growth, the three sleeves, managed by William Blair, Jennison, and Neuberger Berman, benefited.

From an industry perspective, the Portfolio's overweight (hold a greater percentage of securities than the MSCI EAFE Index) to information technology and software stocks added to returns. These industries encompass some of the fastest-growing stocks. As all three sleeves seek companies with higher growth rates, the managers tend to focus on these areas over industries with lower growth rates.

Finally, William Blair's and Jennison's allocations to China and India, countries with higher growth rates relative to the rest of the developed world, further enhanced results. China continued its strong recovery from its lows of early 2016, returning over 50% during 2017. Meanwhile, the India rupee improved versus the dollar. On the other hand, an underexposure to Japan tempered positive results. Japan outperformed, as earnings rose year over year and Shinzo Abe won the country's October election, providing political stability and boosting confidence that there should be few changes to his economic policies. The subadvisers generally underweight (hold less a percentage of securities than the MSCI EAFE Index) Japan, as it is difficult to see sustained earnings growth over the long term given the country's aging demographic challenges.

Participatory notes (P-notes) were used by Jennison to gain access to the Indian market, and did not have an impact on Portfolio relative performance during the period. For additional information regarding the Portfolio's derivative exposures, please refer to the Portfolio's Financial Statements.

¹ The graph is based on the performance of Class I shares. Performance of Class II shares will be lower due to differences in the fee structure. Class II shares have associated 12b-1 and administrative fees at an annual rate of 0.25% and 0.15% respectively of the average daily net assets of the Class II shares.

For a complete list of holdings, refer to the Schedule of Investments section of this report.

Jennison Associates LLC is a registered investment adviser and a Prudential Financial company.

The indexes are unmanaged and include reinvestment of any income or distributions. They do not reflect any fees, expenses or sales charges. Investors cannot invest directly in a market index.

MSCI EAFE (Morgan Stanley Capital International Europe, Australasia, Far East) Index (GD) is an unmanaged, capitalization-weighted index generally accepted as a benchmark for major overseas markets. The GD version does not reflect the impact of withholding taxes on reinvested dividends.

SP International Growth	
Five Largest Holdings	(% of Net Assets)
Alibaba Group Holding Ltd.	3.9%
Tencent Holdings Ltd.	3.1%
Keyence Corp.	2.8%
ASML Holding NV	1.9%
Valeo SA	1.9%

As a contract owner investing in the Portfolio through a variable annuity or variable life contract, you incur ongoing costs, including management fees, and other Portfolio expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other investment options. This example does not reflect fees and charges under your variable annuity or variable life contract. If contract charges were included, the costs shown below would be higher. Please consult the prospectus for your contract for more information about contract fees and charges.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period July 1, 2017 through December 31, 2017.

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use this information, together with the amount you invested, to estimate the Portfolio expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled “Expenses Paid During the Six-Month Period” to estimate the Portfolio expenses you paid on your account during this period. As noted above, the table does not reflect variable contract fees and charges.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Portfolio’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Portfolio’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Portfolio and other investment options. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other investment options.

Please note that the expenses shown in the table are meant to highlight your ongoing Portfolio costs only and do not reflect any contract fees and charges, such as sales charges (loads), insurance charges or administrative charges. Therefore the second line of the table is useful to compare ongoing investment option costs only, and will not help you determine the relative total costs of owning different contracts. In addition, if these contract fee and charges were included, your costs would have been higher.

The Prudential Series Fund Portfolio		Beginning Account Value July 1, 2017	Ending Account Value December 31, 2017	Annualized Expense Ratio based on the Six-Month period	Expenses Paid During the Six-Month period*
SP International Growth (Class I)	Actual	\$1,000.00	\$1,138.80	1.01%	\$5.44
	Hypothetical	\$1,000.00	\$1,020.11	1.01%	\$5.14
SP International Growth (Class II)	Actual	\$1,000.00	\$1,137.00	1.41%	\$7.59
	Hypothetical	\$1,000.00	\$1,018.10	1.41%	\$7.17

* Portfolio expenses (net of fee waivers or subsidies, if any) for each share class are equal to the annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by the 184 days in the six-month period ended December 31, 2017, and divided by the 365 days in the Portfolio’s fiscal year ended December 31, 2017 (to reflect the six-month period). Expenses presented in the table include the expenses of any underlying portfolios in which the Portfolio may invest.

The following abbreviations are used in the annual report:

144A	Security was purchased pursuant to Rule 144A under the Securities Act of 1933 and may not be resold subject to that rule except to qualified institutional buyers. Unless otherwise noted, 144A securities are deemed to be liquid.
ADR	American Depositary Receipt
CVA	Certificate Van Aandelen (Bearer)
LIBOR	London Interbank Offered Rate
OTC	Over-the-counter
PRFC	Preference Shares
REIT(s)	Real Estate Investment Trust(s)
*	Non-income producing security.
(a)	All or a portion of security is on loan. The aggregate market value of such securities, including those sold and pending settlement, is \$7,574,769; cash collateral of \$7,764,222 (included in liabilities) was received with which the Portfolio purchased highly liquid short-term investments.
(b)	Represents security purchased with cash collateral received for securities on loan and includes dividend reinvestment.
(w)	PGIM Investments LLC, the manager of the Portfolio, also serves as manager of the Prudential Investment Portfolios 2 — Prudential Core Ultra Short Bond Fund and Prudential Institutional Money Market Fund.

Fair Value Measurements:

Various inputs are used in determining the value of the Portfolio's investments. These inputs are summarized in the three broad levels listed below.

Level 1—unadjusted quoted prices generally in active markets for identical securities.

Level 2—quoted prices for similar securities, interest rates and yield curves, prepayment speeds, foreign currency exchange rates and other observable inputs.

Level 3—unobservable inputs for securities valued in accordance with Board approved fair valuation procedures.

The following is a summary of the inputs used as of December 31, 2017 in valuing such portfolio securities:

	Level 1	Level 2	Level 3
Investments in Securities

SEE NOTES TO FINANCIAL STATEMENTS.

[THIS PAGE INTENTIONALLY LEFT BLANK]

NOTES TO FINANCIAL STATEMENTS OF THE PRUDENTIAL SERIES FUND

1. General

The Prudential Series Fund (“Series Fund”), organized as a Delaware statutory trust, is registered under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified open-end management investment company. The Series Fund is composed of seventeen Portfolios (“Portfolios”), each with separate series shares. The information presented in these financial statements pertains to SP International Growth Portfolio (the “Portfolio”).

The Portfolio’s investment objective is long-term growth of capital.

2. Accounting Policies

The Series Fund follows investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 Financial Services — *Investment Companies*. The following accounting policies conform to U.S. generally accepted accounting principles. The Series Fund and the Portfolio consistently follow such policies in the preparation of their financial statements.

Securities Valuation: The Portfolio holds securities and other assets and liabilities that are fair valued at the close of each day (generally, 4:00 PM Eastern time) the New York Stock Exchange (“NYSE”) is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Trustees (the “Board”) has adopted valuation procedures for security valuation under which fair valuation responsibilities have been delegated to PGIM Investments LLC (“PGIM Investments” or “the Manager”) (formerly known as Prudential Investments LLC). Under the current valuation procedures, the Valuation Committee is responsible for supervising the valuation of portfolio securities and other assets and liabilities. The valuation procedures permit the Portfolio to utilize independent pricing vendor services, quotations from market makers, and alternative valuation methods when market quotations are either not readily available or not deemed representative of fair value. A record of the Valuation Committee’s actions is subject to the Board’s review, approval, and ratification at its next regularly scheduled quarterly meeting.

Various inputs determine how each Portfolio’s investments are valued, all of which are categorized according to the three broad levels (Level 1, 2, or 3) detailed in the Schedule of Investments.

Common and preferred stocks, exchange-traded funds, and derivative instruments, such as futures or options, that are traded on a national securities exchange are valued at the last sale price as of the close of trading on the applicable exchange where the security principally trades. Securities traded via NASDAQ are valued at the NASDAQ official closing price. To the extent these securities are valued at the last sale price or NASDAQ official closing price, they are classified as Level 1 in the fair value hierarchy. In the event that no sale or official closing price on valuation date exists, these securities are generally valued at the mean between the last reported bid and ask prices, or at the last bid price in the absence of an ask price. These securities are classified as Level 2 in the fair value hierarchy.

Foreign equities traded on foreign securities exchanges are generally valued using pricing vendor services that provide model prices derived using adjustment factors based on information such as local closing price, relevant general and sector indices, currency fluctuations, depositary receipts, and futures, as applicable. Securities valued using such model prices are classified as Level 2 in the fair value hierarchy. The models generate an evaluated adjustment factor for each security, which is applied to the local closing price to adjust it for post closing market movements. Utilizing that evaluated adjustment factor, the vendor provides an evaluated price for each security. If the vendor does not provide an evaluated price, securities are valued in accordance with exchange-traded common and preferred stock valuation policies discussed above.

Participatory notes (“P-notes”) are generally valued based upon the value of a related underlying security that trades actively in the market and are classified as Level 2 in the fair value hierarchy.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their net asset values on the date of valuation.

Securities and other assets that cannot be priced according to the methods described above are valued based on pricing methodologies approved by the Board. In the event that unobservable inputs are used when determining such valuations, the securities will be classified as Level 3 in the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment manager regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other unaffiliated mutual funds to calculate their net asset values.

Restricted and Illiquid Securities: Subject to guidelines adopted by the Board, the Portfolio may invest up to 15% of its net assets in illiquid securities, including those which are restricted as to disposition under securities law ("restricted securities"). Restricted securities are valued pursuant to the valuation procedures noted above. Illiquid securities are those that, because of the absence of a readily available market or due to legal or contractual restrictions on resale, cannot be sold within seven days in the ordinary course of business at approximately the amount at which the Portfolio has valued the investment. Therefore, a Portfolio may find it difficult to sell illiquid securities at the time considered most advantageous by its Subadviser and may incur expenses that would not be incurred in the sale of securities that were freely marketable. Certain securities that would otherwise be considered illiquid because of legal restrictions on resale to the general public may be traded among qualified institutional buyers under Rule 144A of the Securities Act of 1933. These Rule 144A securities, as well as commercial paper that is sold in private placements under Section 4(2) of the Securities Act, may be deemed liquid by the Portfolio's Subadviser under the guidelines adopted by the Board of the Portfolio. However, the liquidity of a Portfolio's investments in Rule 144A securities could be impaired if trading does not develop or declines.

Foreign Currency Translation: The books and records of the Portfolio are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities — at the current rates of exchange;
- (ii) purchases and sales of investment securities, income and expenses — at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets of the Portfolio are presented at the foreign exchange rates and market values at the close of the period, the Portfolio does not generally isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of long-term portfolio securities held at the end of the period. Similarly, the Portfolio does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of long-term portfolio securities sold during the period. Accordingly, holding period realized foreign currency gains (losses) are included in the reported net realized gains (losses) on investment transactions.

Net realized gains (losses) on foreign currency transactions represent net foreign exchange gains (losses) from the disposition of holdings of foreign currencies, currency gains (losses) realized between the trade and settlement dates on securities transactions, and the difference between the amounts of interest, dividends and foreign withholding taxes recorded on the Portfolio's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized currency gains (losses) from valuing foreign currency denominated assets and liabilities (other than investments) at period end exchange rates are reflected as a component of net unrealized appreciation (depreciation) on foreign currencies.

P-notes: Certain Portfolios may gain exposure to securities in certain foreign markets through investments in P-notes. Certain Portfolios may purchase P-notes due to restrictions applicable to foreign investors when investing directly in a foreign market. P-notes are generally issued by banks or broker-dealers and are designed to offer a return linked to a particular underlying security. P-notes involve transaction costs, which may be higher than those applicable to the equity securities. An investment in a P-note may involve risks, including counterparty risk, beyond those normally associated with a direct investment in the underlying security. A Portfolio must rely on the creditworthiness of the counterparty and would have no rights against the issuer of the underlying security. Furthermore, the P-note's performance may differ from that of the

underlying security. The holder of the P-note is entitled to receive from the bank or broker-dealer, an amount equal to dividends paid by the issuer of the underlying security; however, the holder is not entitled to the same rights (e.g., dividends, voting rights) as an owner of the underlying security. There is also no assurance that there will be a secondary trading market for a P-note or that the trading price of a P-note will equal the value of the underlying security.

Master Netting Arrangements: The Series Fund, on behalf of the Portfolio, is subject to various Master Agreements, or netting arrangements, with select counterparties. These are agreements which a subadviser may have negotiated and entered into on behalf of the Portfolio. For multi-sleeve Portfolios, different subadvisers who manage their respective sleeve, may enter into such agreements with the same counterparty and are disclosed separately for each sleeve when presenting information about offsetting and related netting arrangements for OTC derivatives. A master netting arrangement between the Portfolio and the counterparty permits the Portfolio to offset amounts payable by the Portfolio to the same counterparty against amounts to be received; and by the receipt of collateral from the counterparty by the Portfolio to cover the Portfolio's exposure to the counterparty. However, there is no assurance that such mitigating factors are easily enforceable. In addition to master netting arrangements, the right to set-off exists when all the conditions are met such that each of the parties owes the other determinable amounts, the reporting party has the right to set-off the amount owed with the amount owed by the other party, the reporting party intends to set-off, and the right of set-off is enforceable by law. During the reporting period, there was no intention to settle on a net basis and all amounts are presented on a gross basis on the Statement of Assets and Liabilities.

Securities Lending: The Portfolio may lend its portfolio securities to banks and broker-dealers. The loans are secured by collateral at least equal to the market value of the securities loaned. Collateral pledged by each borrower is invested in an affiliated money market fund and is marked to market daily, based on the previous day's market value, such that the value of the collateral exceeds the value of the loaned securities. In the event of significant appreciation in value of securities on loan on the last business day of the reporting period, the financial statements may reflect a collateral value that is less than the market value of the loaned securities. Such shortfall is remedied as described above. Loans are subject to termination at the option of the borrower or the Portfolio. Upon termination of the loan, the borrower will return to the Portfolio securities identical to the loaned securities. Should the borrower of the securities fail financially, the Portfolio has the right to repurchase the securities in the open market using the collateral. The Portfolio recognizes income, net of any rebate and securities lending agent fees, for lending its securities in the form of fees or interest on the investment of any cash received as collateral. The borrower receives all interest and dividends from the securities loaned and such payments are passed back to the lender in amounts equivalent thereto. The Portfolio also continues to recognize any unrealized gain (loss) in the market price of the securities loaned and on the change in the value of the collateral invested that may occur during the term of the loan. In addition, realized gain (loss) is recognized on changes in the value of the collateral invested upon liquidation of the collateral. Net earnings from securities lending are disclosed on the Statement of Operations as "Income from securities lending, net".

Concentration of Risk: Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin as a result of, among other factors, the possibility of political or economic instability or the level of governmental supervision and regulation of foreign securities markets.

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains (losses) from investment and currency transactions are calculated on the specific identification method. Dividend income is recorded on the ex-date. Interest income, including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis. Expenses are recorded on an accrual basis, which may require the use of certain estimates by management that may differ from actual.

Net investment income or loss (other than administration and distribution fees which are charged directly to the respective class) and unrealized and realized gains (losses) are allocated daily to each class of shares based upon the relative proportion of adjusted net assets of each class at the beginning of the day.

Taxes: For federal income tax purposes, the Portfolio is treated as a separate taxpaying entity. The Portfolio is treated as a partnership for tax purposes. No provision has been made in the financial statements for U.S. federal, state, or local taxes, as any tax liability arising from operations of the Portfolio is the responsibility of

the Portfolio's shareholders (Participating Insurance Companies). The Portfolio is not generally subject to entity-level taxation. Shareholders of the Portfolio are subject to taxes on their distributive share of partnership items. Withholding taxes on foreign dividends, interest and capital gains are accrued in accordance with the Portfolio's understanding of the applicable country's tax rules and regulations. Such taxes are accrued net of reclaimable amounts, at the time the related income/gain is recorded. The Portfolio generally attempts to manage its diversification in a manner that supports the diversification requirements of the underlying separate accounts.

Distributions: Distributions, if any, from the Portfolio are made in cash and automatically reinvested in additional shares of the Portfolio. Distributions are recorded on the ex-date.

Estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

3. Agreements

The Series Fund, on behalf of the Portfolio, has entered into a management agreement with PGIM Investments. Pursuant to this agreement, PGIM Investments has responsibility for all investment management services and supervises the subadviser's performance of such services. PGIM Investments has entered into a subadvisory agreement with Jennison Associates LLC ("Jennison"), Neuberger Berman Investment Advisors, LLC ("Neuberger Berman") and William Blair & Company LLC ("William Blair") (collectively, the "Subadviser"), under which Jennison provides investment advisory services for the Portfolio. PGIM Investments pays for the services of the Subadviser, cost of compensation of officers of the Portfolio, occupancy and certain clerical and administrative expenses of the Portfolio. The Portfolio bears all other costs and expenses.

The management fee paid to PGIM Investments is accrued daily and payable monthly at an annual rate of 0.85% of the Portfolio's average daily net assets. PGIM Investments has contractually agreed through June 30, 2018 to waive a portion of its management fee equal to an annual rate of 0.011% of the average daily net assets of the Portfolio. The effective management fee rate net of waivers and/or expense reimbursement was 0.52% for the year ended December 31, 2017.

PGIM Investments has contractually agreed through June 30, 2018 to limit the net annual operating expenses (exclusive of distribution and service (12b-1) fees, administrative fees, taxes (such as income and foreign withholdings taxes, stamp duty and deferred tax expenses), interest, acquired fund fees and expenses, brokerage, extraordinary and certain other expenses such as dividend, broker charges and interest expense on short sales) of each class of shares of the Portfolio to 1.01% of the Portfolio's average daily net assets. Expenses waived/reimbursed by the Manager in accordance with this agreement may be recouped by the Manager within the same fiscal year during which such waiver/reimbursement is made if such recoupment can be realized without exceeding the expense limit in effect at the time of the recoupment for that fiscal year.

The Series Fund, on behalf of the Portfolio, has a distribution agreement, pursuant to Rule 12b-1 under the 1940 Act, with Prudential Investment Management Services LLC ("PIMS"), which acts as the distributor of the Class I and Class II shares of the Portfolio. The Portfolio compensates PIMS for distributing and servicing the Portfolio's Class II shares pursuant to a plan of distribution (the "Class II Plan"), regardless of expenses actually incurred by PIMS. The distribution fees are accrued daily and payable monthly. No distribution or service fees are paid to PIMS as distributor of the Class I shares of the Portfolio. Pursuant to the Class II Plan, the Class II shares of the Portfolio compensate PIMS for distribution-related activities at an annual rate of 0.25% of the average daily net assets of the Class II shares.

The Series Fund has an administration agreement with PGIM Investments, which acts as the administrator of the Class II shares of the Portfolio. The administration fee paid to PGIM Investments is accrued daily and payable monthly, at the annual rate of 0.15% of the average daily net assets of the Class II shares.

PGIM Investments, PIMS and Jennison are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. ("Prudential").

The Series Fund, on behalf of the Portfolio, has entered into brokerage commission recapture agreements with certain registered broker-dealers. Under the brokerage commission recapture program, a portion of the

commission is returned to the Portfolio on whose behalf the trades were made. Commission recapture is paid solely to those portfolios generating the applicable trades. Such amounts are included within realized gain or loss on investment transactions presented in the Statement of Operations. For the year ended December 31, 2017, brokerage commission recaptured under these agreements was \$4,655.

4. Other Transactions with Affiliates

Prudential Mutual Fund Services LLC (“PMFS”), an affiliate of PGIM Investments and an indirect, wholly-owned subsidiary of Prudential, serves as the transfer agent of the Portfolio. The transfer agent’s fees and expenses in the Statement of Operations include certain out-of-pocket expenses paid to non-affiliates, where applicable.

The Portfolio may invest its overnight sweep cash in the Prudential Core Ultra Short Bond Fund (the “Core Fund”) and its securities lending cash collateral in the Prudential Institutional Money Market Fund (the “Money Market Fund”), each a series of Prudential Investment Portfolios 2, registered under the 1940 Act and managed by PGIM Investments. For the reporting period ended December 31, 2017, PGIM, Inc., an affiliate of PGIM Investments and an indirect, wholly-owned subsidiary of Prudential, was compensated \$2,620 by PGIM Investments for managing the Portfolio’s securities lending cash collateral as subadviser to the Money Market Fund. Earnings from the Core Fund and the Money Market Fund are disclosed on the Statement of Operations as “Affiliated dividend income” and “Income from securities lending, net”, respectively.

In February 2016, Prudential, the parent company of the Investment Manager self reported to the Securities and Exchange Commission (“SEC”) and certain other regulators that, in some cases, it failed to maximize securities lending income for the Portfolio of the Series Fund due to a long-standing restriction benefitting Prudential. The Board was not notified of the restriction until after it had been removed. Prudential paid the affected Portfolio an amount equal to the estimated loss associated with the unauthorized restriction. At the Board’s direction, this payment occurred on June 30, 2016. The estimated opportunity loss was calculated by an independent consultant hired by Prudential whose calculation methodology was subsequently reviewed by a consultant retained by the independent trustees of the Series Fund. The amount of opportunity loss payment to the Portfolio is disclosed in the Portfolio’s “Statement of Changes in Net Assets” and “Financial Highlights” as “Capital Contributions”.

In addition to the above, Prudential has paid and continues to directly pay certain legal, audit and other charges in connection with the matter on behalf of the Portfolios.

The SEC Staff and other regulators continue to review the matter.

The Portfolio may enter into certain securities purchase or sale transactions under Board approved Rule 17a-7 procedures. Rule 17a-7 is an exemptive rule under the 1940 Act, that permits purchase and sale transactions among affiliated investment companies, or between an investment company and a person that is affiliated solely by reason of having a common (or affiliated) investment adviser, common directors, and/or common officers. Such transactions are subject to ratification by the Board. For the period ended December 31, 2017 no such transactions were entered into by the Portfolio.

The following Portfolio was reimbursed by Prudential for foreign withholding taxes for certain countries due to the Portfolio’s status as a partnership for tax purposes. The following amounts have been accrued or paid:

	<u>2016 Withholding Tax</u>	<u>2017 Withholding Tax</u>
SP International Growth	\$13,008	\$10,080

5. Portfolio Securities

The aggregate cost of purchases and proceeds from sales of portfolio securities (excluding short-term investments and U.S. Government securities) for the year ended December 31, 2017, were \$32,877,338 and \$34,839,112, respectively.

6. Tax Information

The Portfolio is treated as a partnership for tax purposes. The character of the cash distributions, if any, made by the partnership is generally classified as nontaxable return of capital distributions. After each fiscal year

each shareholder of record will receive information regarding their distributive allocable share of the partnership's income, gains, losses and deductions.

With respect to the Portfolio, book cost of assets differs from tax cost of assets as a result of the Portfolio's adoption of a mark to market method of accounting for tax purposes. Under this method, tax cost of assets will approximate fair market value.

Management has analyzed the Portfolio's tax positions taken on federal, state and local income tax returns for all open tax years and has concluded that no provision for income tax is required in the Portfolio's financial statements for the current reporting period. The Portfolio's federal, state and local income tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

7. Borrowings

The Series Fund, on behalf of the Portfolio, along with other affiliated registered investment companies (the "Funds"), is a party to a Syndicated Credit Agreement ("SCA") with a group of banks. The purpose of the SCA is to provide an alternative source of temporary funding for capital share redemptions. The SCA provides for a commitment of \$900 million for the period October 5, 2017 through October 4, 2018. The Funds pay an annualized commitment fee of 0.15% of the unused portion of the SCA. The Portfolio's portion of the commitment fee for the unused amount, allocated based upon a method approved by the Board, is accrued daily and paid quarterly. Prior to October 5, 2017, the Portfolio had another SCA that provided a commitment of \$900 million and the Portfolio paid an annualized commitment fee of 0.15% of the unused portion of the SCA. The interest on borrowings under the SCAs is paid monthly and at a per annum interest rate based upon a contractual spread plus the higher of (1) the effective federal funds rate, (2) the 1-month LIBOR rate or (3) zero percent.

Other affiliated registered investment companies that are parties to the SCA include portfolios that are subject to a predetermined mathematical formula used to manage certain benefit guarantees offered under variable annuity contracts. The formula may result in large scale asset flows into and out of these portfolios. Consequently, these portfolios may be more likely to utilize the SCA for purposes of funding redemptions. It may be possible for those portfolios to fully exhaust the committed amount of the SCA, thereby requiring the Manager to allocate available funding per a Board-approved methodology designed to treat the Funds in the SCA equitably.

The Portfolio did not utilize the SCA during the period ended December 31, 2017.

8. Capital and Ownership

The Series Fund offers Class I and Class II shares. Neither Class I nor Class II shares of the Portfolio are subject to any sales charge or redemption charge and are sold at the net asset value of the Portfolio. Class I shares are sold only to certain separate accounts of Prudential to fund benefits under certain variable life insurance and variable annuity contracts ("contracts"). Class II shares are sold only to separate accounts of non-Prudential insurance companies as investment options under certain contracts. Class I shares are also offered to separate accounts of non-affiliated insurers for which Prudential or its affiliates administer and/or reinsure the variable life insurance or variable annuity contracts issued in connection with the separate accounts. The separate accounts invest in shares of the Series Fund through subaccounts that correspond to the Portfolios. The separate accounts will redeem shares of the Series Fund to the extent necessary to provide benefits under the contracts or for such other purposes as may be consistent with the contracts.

As of December 31, 2017, substantially all shares of the Portfolio were owned of record by the following affiliates of the Series Fund: Prudential Annuities Life Assurance Corporation ("PALAC"), Pruco Life Insurance Company of New Jersey ("PLNJ"), Pruco Life Insurance Company ("PLAZ") and Prudential Insurance Company of America ("PICA") on behalf of the owners of the variable insurance products issued by each of these entities.

Transactions in shares of beneficial interest were as follows:

<u>Class I</u>	<u>Shares</u>	<u>Amount</u>
Year ended December 31, 2017:		
Series shares sold	766,642	\$ 5,559,009

Portfolio turnover rate	45%	57%	48%	55%	103%

(a) Total return is calculated assuming a purchase of a share on the first day and a sale on the last day of each year reported and includes reinvestment of distributions, if any, and does not reflect the effect of insurance contract charges. Total return does not reflect expenses associated with the separate account such as administrative fees, account charges and surrender charges which, if reflected, would reduce the total return for all years shown. Performance figures may reflect fee waivers and/or expense reimbursements. In the absence of fee waivers and/or expense reimbursements, the total return would be lower. Past performance is no guarantee of future results. Total returns may reflect adjustments to conform to generally accepted accounting principles.

(b) Does not include expenses of the underlying funds in which the Portfolio invests.

(c) Calculated based on average shares outstanding during the year.

(d) Less than \$.005.

(e) Represents payment received by the Portfolio, from Prudential, in connection with the failure to maximize securities lending income due to a restriction that benefited Prudential.

(f) Total return for the year includes the impact of the capital contribution. Excluding the capital contribution, the total return for Class I and Class II would have been (3.74)% and (4.33)%, respectively.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE SHAREHOLDERS AND BOARD OF TRUSTEES
THE PRUDENTIAL SERIES FUND:

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of SP International Growth Portfolio (the "Portfolio"), a portfolio of The Prudential Series Fund, including the schedule of investments, as of December 31, 2017, the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the related notes (collectively, the "financial statements") and the financial highlights for each of the years in the five-year period then ended. In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Portfolio as of December 31, 2017, the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Portfolio's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Portfolio in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of December 31, 2017, by correspondence with the custodian, transfer agent and brokers or by other appropriate auditing procedures when replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

KPMG LLP

KPMG has served as the auditor of one or more Prudential Insurance investment companies since 2003.

Supplemental Proxy Information (Unaudited)

A special meeting of Fund shareholders was held on January 16, 2018. At the meeting, the following proposals were approved by shareholders:

1. To elect Directors.

	<u>Shares Voted</u>	<u>% of Voted</u>	<u>% of Total</u>
For	8,917,410	84.01%	83.94%
Against	835,859.8	7.88	7.87
Abstain	861,135.4	8.11	8.11
Total	10,614,406	100.00	99.92

The prospectuses for the Prudential Series Fund portfolios and the applicable variable annuity or variable life contract contain information on the contract and the investment objectives, risks, charges and expenses of the portfolios, and should be read carefully.

A description of the Fund's proxy voting policies and procedures is available, without charge, upon request by calling the appropriate phone number listed below. Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on the website of the Securities and Exchange Commission (the Commission) at www.sec.gov and on the Fund's website at www.prudential.com/variableinsuranceportfolios.

The Fund files with the Commission a complete listing of portfolio holdings as of its first and third calendar quarter-end on Form N-Q. Form N-Q is available on the Commission's website at www.sec.gov or by visiting the Commission's Public Reference Room. For more information on the Commission's Public Reference Room, please visit the Commission's website or call (800) SEC-0330. Form N-Q is also available on the Fund's website or by calling the telephone number referenced below.

The Fund's Statement of Additional Information contains additional information about the Fund's Trustees and is available without charge upon request by calling the appropriate phone number listed below.

To contact your client services representative, please call the phone number listed below. Thank you.

Owners of Individual Annuity contracts should call (888) 778-2888.

Owners of Individual Life Insurance contracts should call (800) 778-2255.

Owners of Group Variable Universal Life Insurance contracts should call (800) 562-9874.

Owners of Group Variable Universal Life Insurance contracts through AICPA should call (800) 223-7473.

The Prudential Series Fund may offer two classes of shares in each portfolio: Class I and Class II. Class I shares are sold only to separate accounts of The Prudential Insurance Company of America, Pruco Life Insurance Company, and Pruco Life Insurance Company of New Jersey (collectively, Prudential) and to separate accounts of insurance companies not affiliated with Prudential where Prudential has assumed responsibility for the administration of contracts issued through such non-affiliated insurance companies, as investment options under variable life insurance and variable annuity contracts (the Contracts). (A separate account keeps the assets supporting certain insurance contracts separate from the general assets and liabilities of the insurance company.) Class II shares are offered only to separate accounts of non-Prudential insurance companies for the same types of Contracts.

The Prudential Series Fund is distributed by Prudential Investment Management Services LLC (PIMS), 655 Broad Street, 19th Floor, Newark, NJ 07102, member SIPC, a Prudential Financial company and solely responsible for its own financial condition and contractual obligations.

Annuity and life insurance contracts contain exclusions, limitations, reductions of benefits, and terms for keeping them in force. Your licensed financial professional can provide you with costs and complete details. Contract guarantees are based on the claims-paying ability of the issuing company.

The Audited Financial Statements of Pruco Life Insurance Company, Pruco Life Insurance Company of New Jersey, Prudential Annuities Life Assurance Corporation, and The Prudential Insurance Company of America are available upon request. You may call (800)778-2255 to obtain a free copy of the audited financial statements of the insurance company that issued your contract.

To reduce costs, we now generally send only a single copy of prospectuses and shareholder reports to each household (householding) in lieu of sending a copy to each Contract Owner who resides in the household. Householding is not yet available on all products. You should be aware that by calling (877) 778-5008, you can revoke, or “opt out,” of householding at any time, which may increase the volume of mail you will receive.
