Important Notes to Performance Information

Performance data is historical and cannot predict or guarantee future results. Principal value and investment return will fluctuate with market conditions, and you may have a gain or loss when you withdraw your money. Inception dates of the funds may have preceded the effective dates of the subaccounts, contracts or their availability in all states.

When reviewing the index comparisons, please keep in mind that indexes have a number of inherent performance differentials over the funds. First, unlike the funds, which must hold a minimum amount of cash to maintain liquidity, indexes do not have a cash component. Second, the funds are actively managed and, thus, are subject to management fees to cover salaries of securities analysts or portfolio managers in addition to other expenses. Indexes are unmanaged and do not include any commissions or other expenses typically associated with investing in securities. Third, indexes often contain a different mix of securities than the fund to which they are compared. Additionally, please remember that indexes are simply a measure of performance and cannot be invested in directly.

Franklin Strategic Income VIP Fund

This semiannual report for Franklin Strategic Income VIP Fund covers the period ended June 30, 2022.

Class 1 Performance Summary as of June 30, 2022

The Fund's Class 1 Shares posted a -11.44% total return* for the six-month period ended June 30, 2022.

*The Fund has a fee waiver associated with any investment it makes in a Franklin Templeton money fund and/or other Franklin Templeton fund, contractually guaranteed through 4/30/23. Fund investment results reflect the fee waiver; without this waiver, the results would have been lower.

Performance reflects the Fund's Class 1 operating expenses, but does **not** include any contract fees, expenses or sales charges. If they had been included, performance would be lower. These charges and deductions, particularly for variable life policies, can have a significant effect on contract values and insurance benefits. See the contract prospectus for a complete description of these expenses, including sales charges.

Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.

Franklin Strategic Income VIP Fund

Fund Goal and Main Investments

The Fund seeks a high level of current income, with capital appreciation over the long term as a secondary goal. Under normal market conditions, the Fund invests primarily to predominantly in U.S. and foreign debt securities, including those in emerging markets.

Fund Risks

All investments involve risks, including possible loss of principal. Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance. Bond prices generally move in the opposite direction of interest rates. Thus, as prices of bonds in the Fund adjust to a rise in interest rates, the Fund's share price may decline. Changes in the financial strength of a bond issuer or in a bond's credit rating may affect its value. High yields reflect the higher credit risks associated with certain lower rated securities held in the portfolio. Floating rate loans and high yield corporate bonds are rated below investment grade and are subject to greater risk of default, which could result in loss of principal—a risk that may be heightened in a slowing economy. The risks of foreign securities include currency fluctuations and political uncertainty. Investments in developing markets involve heightened risks related to the same factors, in addition to those associated with their relatively small size and lesser liquidity. Investing in derivative securities and the use of foreign currency techniques involve special risks as such may not achieve the anticipated benefits and/or may result in losses to the Fund. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results. The Fund's prospectus also includes a description of the main investment risks.

Russia's military invasion of Ukraine in February 2022, the resulting responses by the United States and other countries, and the potential for wider conflict could increase volatility and uncertainty in the financial markets and adversely affect regional and global economies. The United States and other countries have imposed broadranging economic sanctions on Russia and certain Russian individuals, banking entities and corporations as a response to its invasion of Ukraine. The United States and other countries have also imposed economic sanctions on Belarus and may impose sanctions on other countries that support Russia's military invasion. These sanctions, as well as any other economic consequences related to the invasion, such

as additional sanctions, boycotts or changes in consumer or purchaser preferences or cyberattacks on governments, companies or individuals, may further decrease the value and liquidity of certain Russian securities and securities of issuers in other countries that are subject to economic sanctions related to the invasion.

Performance Overview

You can find the Fund's six-month total return in the Performance Summary. For comparison, the Fund's benchmark, the Bloomberg U.S. Aggregate Bond Index, posted a -10.35% total return for the period under review.

Portfolio Composition

6/30/22

	% of Total Net Assets
Corporate Bonds	42.0%
U.S. Government and Agency Securities	16.5%
Management Investment Companies	8.8%
Asset-Backed Securities	7.6%
Foreign Government and Agency Securities	7.1%
Residential Mortgage-Backed Securities	6.9%
Mortgage-Backed Securities	3.3%
Marketplace Loans	2.9%
Other	2.4%
Short-Term Investments & Other Net Assets	2.5%

Economic and Market Overview

The U.S. bond market, as measured by the Bloomberg U.S. Aggregate Bond Index, posted a -10.35% total return for the six months ended June 30, 2022. High inflation amid supply chain disruptions and increased consumer spending led to significantly tighter monetary policy, reducing the value of most bonds. Geopolitical instability disrupted financial markets following Russia's invasion of Ukraine, adding to the uncertainty surrounding the global economy. The yield curve flattened notably during the period, reflecting investors' expectations that short-term interest rates would continue to rise, while the outlook for long-term economic growth was uncertain.

In an effort to control inflation, the U.S. Federal Reserve (Fed) raised the federal funds target in March 2022, the first such increase since 2018. The Fed raised the federal funds rate again at its subsequent two meetings, accelerating the rate of increase each time to end the period at a range

One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. Please see Index Descriptions following the Fund Summaries.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Summary Schedule of Investments (SOI).

^{1.} Source: Morningstar.

of 1.50%–1.75%. The Fed noted in its June 2022 meeting that inflation remained elevated, as job growth was robust and the unemployment rate remained low. Furthermore, the Fed said it would continue to reduce its bond holdings, and anticipated instituting further interest-rate increases at future meetings.

U.S. Treasury (UST) bonds, as measured by the Bloomberg U.S. Treasury Index, posted a -9.14% total return for the six-month period.¹ The 10-year UST yield (which moves inversely to price) grew notably, particularly beginning in March 2022, amid high inflation and the Fed's tightening monetary stance. Mortgage-backed securities (MBS), as measured by the Bloomberg U.S. MBS Index, posted a -8.78% total return for the period as mortgage rates rose to the highest level in over a decade.¹

Corporate bond prices also declined overall, constrained by inflation, rising interest rates and concerns about the impact of higher interest rates on corporate borrowing costs and the wider economy. Corporate yield spreads, a measure of the difference in yields between corporate bonds and similarly-dated USTs, rose, reflecting investors' increased risk-aversion preferences. In this environment, high-yield corporate bonds, as represented by the Bloomberg U.S. Corporate High Yield Bond Index, posted a -14.19% total return, and investment-grade corporate bonds, as represented by the Bloomberg U.S. Corporate Bond Index, posted a -14.39% total return.1

Investment Strategy

We allocate our investments among the various types of debt available based on our assessment of changing economic, global market, industry and issuer conditions. We use a top-down analysis of macroeconomic trends, combined with a bottom-up fundamental analysis of market sectors, industries and issuers, seeking to take advantage of varying sector reactions to economic events. For example, we may evaluate business cycles, yield curves, country risk, and the relative interest rates among currencies, and values between and within markets. In selecting debt securities, we generally conduct our own analysis of the security's intrinsic value rather than simply relying on the coupon rate or rating. We may also enter into various transactions involving certain currency-, interest rate- or credit-related derivative instruments.

Manager's Discussion

The Fund allocated assets across the broad fixed income markets seeking the best relative value opportunities for income and capital appreciation.

The portfolio held sizable exposure across corporate credit sectors and maintained our largest exposure in high-yield corporate credit, but decreased allocation over the period. We are cautious on high-yield spreads in the near-term as the Fed will likely need to take the federal funds rate into restrictive territory and interest rates, therefore, have significant room to the upside. Longer-term, we remain constructive on the asset class as we believe high-yield credit fundamentals entered this turbulent period in solid shape, with net leverage having essentially healed from the COVID-19 shock and interest coverage at a record level. While we expect the default rate to increase from a record low reached earlier this year, we believe this default cycle will likely be more muted with maturity walls for most issuers having been pushed out substantially over the past two years as wide-open capital markets sparked a massive refinancing wave.

The portfolio's second largest allocation was U.S. Treasuries, as we increased exposure meaningfully over the period, followed by investment-grade corporate credit and senior secured floating-rate loans. The Fed's increasingly aggressive policy aimed at combatting persistently high inflation caused recalibrations of growth expectations fueled by worries that the tightening cycle may end in a recession. Even though company revenues have continued to grow, rising input prices, supply chain disruptions, and weaker consumer demand are putting pressure on margins and impacting corporate profitability, while geopolitical risk and COVID-19 related lockdowns in China are adding to uncertainty.

The portfolio remains allocated to sovereign emerging market securities (sovereign EM), but significantly reduced allocation over the period. The tragic events that have taken place in Ukraine since the Russian invasion in late February 2022 have been a key factor in the weakness of sovereign EM. We still see select sovereign EMs as fundamentally strong due to increased and improving external balances, as high commodity prices bring benefits in aggregate to the asset class. While inflationary factors, particularly food prices, pose a potential risk to government stability in countries reliant on imports of food staples, decisive action by emerging markets central banks so far, has put them ahead of the curve—in contrast to most developed market peers. Better managed debt stocks, with longer durations and lower foreign-currency exposure underpin our belief that, while the next few months of further tightening in external financing conditions will not be easy for sovereign EM, it should not unravel into a systemic crisis for the asset class.

We increased our allocation to collateralized loan obligations (CLOs) and we remained allocated to the nonagency residential mortgage-backed securities (RMBS) sector, with exposure primarily in the seasoned credit risk transfer securities. While we believe the U.S. housing market remains in a solid fundamental position, we have downgraded our outlook for the sector and decreased allocation over the quarter. Our outlook downgrade was driven by our expectations for a deceleration in home price growth and heavy near-term supply in RMBS. Heavy issuance and slower prepayments due to higher rates have put pressure on new issue RMBS spreads and we expect widening to continue in the near-term.

In our foreign-currency exposure, we closed out many existing positions with allocation at period-end consisting of long Dominican peso and short euro, and a small, short Colombian peso, positions.

Allocation across corporate credit sectors (including highyield and investment-grade corporate bonds, senior secured floating-rate loans and CLOs) detracted from performance. As the continuing Russia-Ukraine war led to significant volatility in global financial markets, the emerging market sector was directly impacted by risk-off sentiment and outflows, resulting in it being the worst performing fixed income asset class. Extreme price volatility in our exposure to the region had a material impact on performance.

Allocation to RMBS was a slight contributor to performance.

The Fund utilized derivatives, including credit default swaps, currency forwards and government bond futures, primarily as a tool for efficient portfolio management and to manage overall portfolio risk. These derivative transactions may provide the same, or similar, net long or short exposure to select currencies, interest rates, countries, duration or credit risks compared to holding securities.

Thank you for your participation in Franklin Strategic Income VIP Fund. We look forward to serving your future investment needs.

The foregoing information reflects our analysis, opinions and portfolio holdings as of June 30, 2022, the end of the reporting period. The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment

manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.

Class 1 Fund Expenses

As an investor in a variable insurance contract (Contract) that indirectly provides for investment in an underlying mutual fund, you can incur transaction and/or ongoing expenses at both the Fund level and the Contract Level: (1) transaction expenses can include sales charges (loads) on purchases, surrender fees, transfer fees and premium taxes; and (2) ongoing expenses can include management fees, distribution and service (12b-1) fees, contract fees, annual maintenance fees, mortality and expense risk fees and other fees and expenses. All mutual funds and Contracts have some types of ongoing expenses. The table below shows Fund-level ongoing expenses and can help you understand these costs and compare them with those of other mutual funds offered through the Contract. The table assumes a \$1,000 investment held for the six months indicated. Please refer to the Fund prospectus for additional information on operating expenses.

Actual Fund Expenses

The table below provides information about the actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of ongoing Fund expenses but does not include the effect of ongoing Contract expenses, is used to calculate the "Ending Account Value." You can estimate the Fund-level expenses you paid during the period by following these steps (of course, your account value and expenses will differ from those in this illustration): Divide your account value by \$1,000 (if your account had an \$8,600 value, then \$8,600 \div \$1,000 = 8.6). Then multiply the result by the number under the headings "Actual" and "Fund-Level Expenses Paid During Period" (if Fund-Level Expenses Paid During Period were \$7.50, then 8.6 x \$7.50 = \$64.50). In this illustration, the estimated expenses paid this period at the Fund level are \$64.50.

Hypothetical Example for Comparison with Other Mutual Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other mutual funds offered through the Contract. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds offered through the Contract.

Please note that expenses shown in the table are meant to highlight ongoing costs at the Fund level only and do not reflect any ongoing expenses at the Contract level, or transaction expenses at either the Fund or Contract levels. In addition, while the Fund does not have transaction expenses, if the transaction and ongoing expenses at the Contract level were included, the expenses shown below would be higher. You should consult your Contract prospectus or disclosure document for more information.

	(ac		tual after expenses)	Hypo (5% annual retur		
Share Class	Beginning Account Value 1/1/22	Ending Account Value 6/30/22	Fund-Level Expenses Paid During Period 1/1/22–6/30/22 ^{1,2}	Ending Account Value 6/30/22	Fund-Level Expenses Paid During Period 1/1/22–6/30/22 ^{1,2}	Net Annualized Expense Ratio ²
1	\$1,000	\$885.60	\$3.44	\$1,021.14	\$3.69	0.74%

^{1.} Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 181/365 to reflect the one-half year period.

^{2.} Reflects expenses after fee waivers and expense reimbursements. Does not include any ongoing expenses of the Contract for which the Fund is an investment option or acquired fund fees and expenses.

FSI P1 P2 P4 08/22

SUPPLEMENT DATED AUGUST 1, 2022 TO THE PROSPECTUS DATED MAY 1, 2022 OF

FRANKLIN STRATEGIC INCOME VIP FUND

(a series of Franklin Templeton Variable Insurance Products Trust)

The Prospectus is amended as follows:

I. The portfolio management team under the "Fund Summaries – Portfolio Manager" section on page FSI-S7 of the prospectus is replaced with the following:

Portfolio Managers

Sonal Desai, Ph.D.

Executive Vice President and Director of Advisers and portfolio manager of the Fund since 2018.

Patrick Klein, Ph.D.

Senior Vice President of Advisers and portfolio manager of the Fund since August 2022.

Patricia O'Connor, CFA

Vice President of Advisers and portfolio manager of the Fund since 2016.

Thomas Runkel, CFA

Vice President of Advisers and portfolio manager of the Fund since August 2022.

Benjamin Cryer, CFA

Portfolio Manager of Advisers and portfolio manager of the Fund since August 2022.

David Yuen, CFA, FRM

Portfolio Manager of Advisers and portfolio manager of the Fund since 2019.

David Yuen will be retiring effective September 30, 2022. Effective October 1, 2022, Mr. Yuen will no longer be portfolio manager of the Fund.

II. The portfolio management team under the "Fund Details – Management" section on page FSI-D12 the prospectus is replaced with the following:

Sonal Desai, Ph.D. Executive Vice President and Director of Advisers

Dr. Desai has been a portfolio manager of the Fund since 2018. She joined Franklin Templeton in 2009.

Patrick Klein, Ph.D. Senior Vice President of Advisers

Dr. Klein has been a portfolio manager of the Fund since August 2022. He joined Franklin Templeton in 2005.

Patricia O'Connor, CFA

Ms. O'Connor has been a portfolio manager of the Fund since 2016. She joined Franklin Templeton in 1997.

Thomas Runkel, CFA Vice President of Advisers

Mr. Runkel has been a portfolio manager of the Fund since August 2022. He first joined Franklin Templeton in 1983 and rejoined in 2006.

Benjamin Cryer, CFA Portfolio Manager of Advisers

Mr. Cryer has been a portfolio manager of the Fund since August 2022. He joined Franklin Templeton in 2006.

David Yuen, CFA, FRM Portfolio Manager of Advisers

Mr. Yuen has been a portfolio manager of the Fund since 2019. He joined Franklin Templeton in 2000.

The portfolio managers of the Fund are jointly and primarily responsible for the day-to-day management of the Fund. Each manager has equal authority over all aspects of the Fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio risk assessment, and the management of daily cash balances in accordance with anticipated investment management requirements. The degree to which each portfolio manager may perform these functions, and the nature of these functions, may change from time to time.

CFA® and Chartered Financial Analyst® are trademarks owned by CFA Institute.

David Yuen will be retiring effective September 30, 2022. Effective October 1, 2022, Mr. Yuen will no longer be portfolio manager of the Fund.

Please keep this supplement with your prospectus for future reference.

^{*}The principal amount is stated in U.S. dollars unless otherwise indicated.

[†]Rounds to less than 0.1% of net assets.

^a Non-income producing.

^b Fair valued using significant unobservable inputs. See Note 13 regarding fair value measurements.

^cSee Note 10 regarding restricted securities.

^d See Note 3(e) regarding investments in affiliated management investment companies.

e Income may be received in additional securities and/or cash.

^fPerpetual security with no stated maturity date.

Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At June 30, 2022, the aggregate value of these securities was \$135,327,171, representing 41.8% of net assets.

^h See Note 7 regarding credit risk and defaulted securities.

See Note 1(g) regarding senior floating rate interests.

The coupon rate shown represents the rate inclusive of any caps or floors, if applicable, in effect at period end.

^{*}See Note 1(h) regarding Marketplace Lending. See full breakdown of marketplace loans holdings in the table at the end of this schedule.

A supranational organization is an entity formed by two or more central governments through international treaties.

^m Principal amount of security is adjusted for inflation. See Note 1(j).

Adjustable rate security with an interest rate that is not based on a published reference index and spread. The rate is based on the structure of the agreement and current market conditions. The coupon rate shown represents the rate at period end.

oAdjustable Rate Mortgage-Backed Security (ARM); the rate shown is the effective rate at period end. ARM rates are not based on a published reference rate and spread, but instead pass-through weighted average interest income inclusive of any caps or floors, if applicable, from the underlying mortgage loans in which the majority of mortgages pay interest based on the index shown at their designated reset dates plus a spread, less the applicable servicing and guaranty fee (MBS margin).

PSecurity purchased on a to-be-announced (TBA) basis. See Note 1(c).

^qThe rate shown is the annualized seven-day effective yield at period end.

Schedule of Investments (unaudited), June 30, 2022

Franklin Strategic Income VIP Fund

At June 30, 2022, the Fund had the following marketplace loans outstanding. See Note 1(e).

⁽e) In U.S. dollars unless otherwise indicated. For contracts to sell protection, the notional amount is equal to the maximum potential amount of the future payments and no recourse provisions have been entered into in association with the contracts.

See Note 11 regarding other derivative information.

See Abbreviations on page FSI-67.

⁽b)Based on Standard and Poor's (S&P) Rating for single name swaps and internal ratings for index swaps. Internal ratings based on mapping into equivalent ratings from external vendors.

Performance triggers for settlement of contract include default, bankruptcy or restructuring for single name swaps, and failure to pay or bankruptcy of the underlying securities for traded index swaps.

⁽d) The fund enters contracts to sell protection to create a long credit position.

⁽e)Represents a custom index comprised of a basket of underlying instruments.

Notes to Financial Statements (unaudited)

Franklin Strategic Income VIP Fund

1. Organization and Significant Accounting Policies

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of eighteen separate funds and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP). Franklin Strategic Income VIP Fund (Fund) is included in this report. Shares of the Fund are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts. At June 30, 2022, 77.1% of the Fund's shares were held through one insurance company. Investment activities of these insurance company separate accounts could have a material impact on the Fund. The Fund offers three classes of shares: Class 1, Class 2 and Class 4. Each class of shares may differ by its distribution fees, voting rights on matters affecting a single class and its exchange privilege.

The following summarizes the Fund's significant accounting policies.

a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Fund calculates the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Fund's administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation Committee (VC). The Fund may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities and derivative financial instruments listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is

determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Debt securities generally trade in the OTC market rather than on a securities exchange. The Fund's pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the date that the values of the foreign debt securities are determined.

Investments in open-end mutual funds are valued at the closing NAV.

Certain derivative financial instruments are centrally cleared or trade in the OTC market. The Fund's pricing services use various techniques including industry standard option pricing models and proprietary discounted cash flow models to determine the fair value of those instruments. The Fund's net benefit or obligation under the derivative contract, as measured by the fair value of the contract, is included in net assets.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Fund primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate

1. Organization and Significant Accounting Policies (continued)

a. Financial Instrument Valuation (continued)

fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Fund's business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Fund's portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At June 30, 2022, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 inputs within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Fund's NAV is not calculated, which could result in differences between the value of the Fund's portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

b. Foreign Currency Translation

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S.

dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

c. Securities Purchased on a TBA Basis

The Fund purchases securities on a to-be-announced (TBA) basis, with payment and delivery scheduled for a future date. These transactions are subject to market fluctuations and are subject to the risk that the value at delivery may be more or less than the trade date purchase price.

d. Securities Lending

The Fund participates in an agency based securities lending program to earn additional income. The Fund receives collateral in the form of cash and/or U.S. Government and Agency securities against the loaned securities in an amount equal to at least 102% of the fair value of the loaned securities. Collateral is maintained over the life of the loan in an amount not less than 100% of the fair value of loaned securities, as determined at the close of Fund business each day; any additional collateral required due to changes in security values is delivered to the Fund on the next business day. Any cash collateral received is deposited into a joint cash account with other funds and is used to invest in a

1. Organization and Significant Accounting Policies (continued)

d. Securities Lending (continued)

money market fund managed by Franklin Advisers, Inc., an affiliate of the Fund, and/or a joint repurchase agreement in the Statement of Assets and Liabilities. The Fund may receive income from the investment of cash collateral, in addition to lending fees and rebates paid by the borrower. Income from securities loaned, net of fees paid to the securities lending agent and/or third-party vendor, is reported separately in the Statement of Operations. The Fund bears the market risk with respect to any cash collateral investment, securities loaned, and the risk that the agent may default on its obligations to the Fund. If the borrower defaults on its obligation to return the securities loaned, the Fund has the right to repurchase the securities in the open market using the collateral received. The securities lending agent has agreed to indemnify the Fund in the event of default by a third party borrower. At June 30, 2022, the Fund had no securities on loan.

e. Derivative Financial Instruments

The Fund invested in derivative financial instruments in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and/or the potential for market movements which expose the Fund to gains or losses in excess of the amounts shown in the Statement of Assets and Liabilities. Realized gain and loss and unrealized appreciation and depreciation on these contracts for the period are included in the Statement of Operations.

Derivative counterparty credit risk is managed through a formal evaluation of the creditworthiness of all potential counterparties. The Fund attempts to reduce its exposure to counterparty credit risk on OTC derivatives, whenever possible, by entering into International Swaps and Derivatives Association (ISDA) master agreements with certain counterparties. These agreements contain various provisions, including but not limited to collateral

requirements, events of default, or early termination. Termination events applicable to the counterparty include certain deteriorations in the credit quality of the counterparty. Termination events applicable to the Fund include failure of the Fund to maintain certain net asset levels and/or limit the decline in net assets over various periods of time. In the event of default or early termination, the ISDA master agreement gives the non-defaulting party the right to net and close-out all transactions traded, whether or not arising under the ISDA agreement, to one net amount payable by one counterparty to the other. However, absent an event of default or early termination, OTC derivative assets and liabilities are presented gross and not offset in the Statement of Assets and Liabilities. Early termination by the counterparty may result in an immediate payment by the Fund of any net liability owed to that counterparty under the ISDA agreement.

Collateral requirements differ by type of derivative. Collateral or initial margin requirements are set by the broker or exchange clearing house for exchange traded and centrally cleared derivatives. Initial margin deposited is held at the exchange and can be in the form of cash and/or securities. For OTC derivatives traded under an ISDA master agreement, posting of collateral is required by either the Fund or the applicable counterparty if the total net exposure of all OTC derivatives with the applicable counterparty exceeds the minimum transfer amount, which typically ranges from \$100,000 to \$250,000, and can vary depending on the counterparty and the type of agreement. Generally, collateral is determined at the close of Fund business each day and any additional collateral required due to changes in derivative values may be delivered by the Fund or the counterparty the next business day, or within a few business days. Collateral pledged and/or received by the Fund for OTC derivatives, if any, is held in segregated accounts with the Fund's custodian/counterparty broker and can be in the form of cash and/or securities. Unrestricted cash may be invested according to the Fund's investment objectives. To the extent that the amounts due to the Fund from its counterparties are not subject to collateralization or are not fully collateralized, the Fund bears the risk of loss from counterparty non-performance.

The Fund entered into exchange traded futures contracts primarily to manage and/or gain exposure to interest rate risk. A futures contract is an agreement between the Fund and a counterparty to buy or sell an asset at a specified price on a future date. Required initial margins are pledged by the

1. Organization and Significant Accounting Policies (continued)

e. Derivative Financial Instruments (continued)

Fund, and the daily change in fair value is accounted for as a variation margin payable or receivable in the Statement of Assets and Liabilities.

The Fund entered into OTC forward exchange contracts primarily to manage and/or gain exposure to certain foreign currencies. A forward exchange contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency at a specific exchange rate on a future date.

The Fund entered into credit default swap contracts primarily to manage and/or gain exposure to credit risk. A credit default swap is an agreement between the Fund and a counterparty whereby the buyer of the contract receives credit protection and the seller of the contract guarantees the credit worthiness of a referenced debt obligation. These agreements may be privately negotiated in the over-thecounter market (OTC credit default swaps) or may be executed in a multilateral trade facility platform, such as a registered exchange (centrally cleared credit default swaps). The underlying referenced debt obligation may be a single issuer of corporate or sovereign debt, a credit index, a basket of issuers or indices, or a tranche of a credit index or basket of issuers or indices. In the event of a default of the underlying referenced debt obligation, the buyer is entitled to receive the notional amount of the credit default swap contract from the seller in exchange for the referenced debt obligation, a net settlement amount equal to the notional amount of the credit default swap less the recovery value of the referenced debt obligation, or other agreed upon amount. For centrally cleared credit default swaps, required initial margins are pledged by the Fund, and the daily change in fair value is accounted for as a variation margin payable or receivable in the Statement of Assets and Liabilities. Over the term of the contract, the buyer pays the seller a periodic stream of payments, provided that no event of default has occurred. Such periodic payments are accrued daily as an unrealized appreciation or depreciation until the payments are made, at which time they are realized. Upfront payments and receipts are reflected in the Statement of Assets and Liabilities and represent compensating factors between stated terms of the credit default swap agreement and prevailing market conditions (credit spreads and other

relevant factors). These upfront payments and receipts are amortized over the term of the contract as a realized gain or loss in the Statement of Operations.

The Fund purchased or wrote OTC option contracts primarily to manage and/or gain exposure to interest rate and credit risk. An option is a contract entitling the holder to purchase or sell a specific amount of shares or units of an asset or notional amount of a swap (swaption), at a specified price. When an option is purchased or written, an amount equal to the premium paid or received is recorded as an asset or liability, respectively. Upon exercise of an option, the acquisition cost or sales proceeds of the underlying investment is adjusted by any premium received or paid. Upon expiration of an option, any premium received or paid is recorded as a realized gain or loss. Upon closing an option other than through expiration or exercise, the difference between the premium received or paid and the cost to close the position is recorded as a realized gain or loss.

The Fund invests in value recovery instruments (VRI) primarily to gain exposure to economic growth. Periodic payments from VRI are dependent on established benchmarks for underlying variables. VRI has a notional amount, which is used to calculate amounts of payments to holders. Payments are recorded upon receipt as realized gains in the Statement of Operations. The risks of investing in VRI include growth risk, liquidity, and the potential loss of investment. The Fund did not hold any VRI at period end.

See Note 11 regarding other derivative information.

f. Mortgage Dollar Rolls

The Fund enters into mortgage dollar rolls, typically on a TBA basis. Mortgage dollar rolls are agreements between the Fund and a financial institution where the Fund sells (or buys) mortgage-backed securities for delivery on a specified date and simultaneously contracts to repurchase (or sell) substantially similar (same type, coupon, and maturity) securities at a future date and at a predetermined price. Gains or losses are realized on the initial sale, and the difference between the repurchase price and the sale price is recorded as an unrealized gain or loss to the Fund upon entering into the mortgage dollar roll. In addition, the Fund may invest the cash proceeds that are received from the initial sale. During the period between the sale and repurchase, the Fund is not entitled to principal and interest paid on the mortgage backed securities. Transactions in mortgage dollar rolls are accounted for as purchases and

1. Organization and Significant Accounting Policies (continued)

f. Mortgage Dollar Rolls (continued)

sales and may result in an increase to the Fund's portfolio turnover rate. The risks of mortgage dollar roll transactions include the potential inability of the counterparty to fulfill its obligations.

g. Senior Floating Rate Interests

The Fund invests in senior secured corporate loans that pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank or the London InterBank Offered Rate (LIBOR). Senior secured corporate loans often require prepayment of principal from excess cash flows or at the discretion of the borrower. As a result, actual maturity may be substantially less than the stated maturity. Senior secured corporate loans in which the Fund invests are generally readily marketable, but may be subject to certain restrictions on resale.

h. Marketplace Lending

The Fund invests in loans obtained through marketplace lending. Marketplace lending, sometimes referred to as peer-to-peer lending, is a method of financing in which a platform facilitates the borrowing and lending of money. It is considered an alternative to more traditional forms of debt financing. Prospective borrowers are required to provide certain financial information to the platform, including, but not limited to, the intended purpose of the loan, income, employment information, credit score, debt-to-income ratio, credit history (including defaults and delinguencies) and home ownership status. Based on this and other information, the platform assigns its own credit rating to the borrower and sets the interest rate for the requested loan. The platform then posts the borrowing requests online, giving investors the opportunity to purchase the loans based on factors such as the interest rates and expected yields of the loans, the borrower background data, and the credit rating assigned by the platform.

When the Fund invests in these loans, it usually purchases all rights, title and interest in the loans pursuant to a loan purchase agreement directly from the platform. The platform or a third-party servicer typically continues to service the loans, collecting payments and distributing them to the Fund, less any servicing fees assessed. The servicer is typically

responsible for taking actions against a borrower in the event of a default on the loan. Servicing fees, along with other administration fees, are included in marketplace lending fees in the Statement of Operations. The Fund, as an investor in a loan, would be entitled to receive payment only from the borrower and would not be able to recover any deficiency from the platform, except under very narrow circumstances. The loans in which the Fund may invest are unsecured.

i. Income and Deferred Taxes

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and if applicable, excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

The Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of June 30, 2022, the Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each jurisdiction in which the Fund invests.

j. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Amortization of premium and accretion of discount on debt securities are included in interest income. Paydown gains and losses

1. Organization and Significant Accounting Policies (continued)

j. Security Transactions, Investment Income, Expenses and Distributions (continued)

are recorded as an adjustment to interest income. Facility fees are recognized as income over the expected term of the loan. Dividend income is recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Fund. Distributions to shareholders are recorded on the ex-dividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the Funds based on the ratio of net assets of each Fund to the combined net assets of the Trust or based on the ratio of number of shareholders of each Fund to the combined number of shareholders of the Trust. Fund specific expenses are charged directly to the Fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

k. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting year. Actual results could differ from those estimates.

I. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

2. Shares of Beneficial Interest

At June 30, 2022, there were an unlimited number of shares authorized (without par value). Transactions in the Fund's shares were as follows:

	Six Months Ended June 30, 2022		Year End December 3	
	Shares	Amount	Shares	Amount
Class 1 Shares:				
Shares sold	206,141	\$2,066,835	1,119,217	\$11,967,151
Shares issued in reinvestment of distributions	1,032,812	9,367,599	830,678	8,780,267
Shares redeemed	(1,822,932)	(18,160,932)	(2,899,771)	(30,998,439)
Net increase (decrease)	(583,979)	\$(6,726,498)	(949,876)	\$(10,251,021)
Class 2 Shares:				
Shares sold	647,443	\$6,253,911	1,656,006	\$17,067,289
Shares issued in reinvestment of distributions	394,083	3,440,344	299,698	3,050,922
Shares redeemed	(886,596)	(8,460,013)	(2,909,726)	(30,030,432)
Net increase (decrease)	154,930	\$1,234,242	(954,022)	\$(9,912,221)
Class 4 Shares:				
Shares sold	100,854	\$1,052,735	516,341	\$5,494,257
Shares issued in reinvestment of distributions	195,811	1,764,256	159,987	1,678,261
Shares redeemed	(356,884)	(3,537,884)	(744,790)	(7,891,486)
Net increase (decrease)	(60,219)	\$(720,893)	(68,462)	\$(718,968)

3. Transactions with Affiliates

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

Subsidiary	Affiliation
Franklin Advisers, Inc. (Advisers)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager
Franklin Distributors, LLC (Distributors)	Principal underwriter
Franklin Templeton Investor Services, LLC (Investor Services)	Transfer agent

3. Transactions with Affiliates (continued)

a. Management Fees

The Fund pays an investment management fee, calculated daily and paid monthly, to Advisers based on the average daily net assets of the Fund as follows:

Annualized Fee Rate	Net Assets
0.625%	Up to and including \$500 million
0.525%	Over \$500 million, up to and including \$1 billion
0.480%	Over \$1 billion, up to and including \$1.5 billion
0.435%	Over \$1.5 billion, up to and including \$6.5 billion
0.415%	Over \$6.5 billion, up to and including \$11.5 billion
0.400%	Over \$11.5 billion, up to and including \$16.5 billion
0.390%	Over \$16.5 billion, up to and including \$19 billion
0.380%	Over \$19 billion, up to and including \$21.5 billion
0.370%	In excess of \$21.5 billion

For the period ended June 30, 2022, the annualized gross effective investment management fee rate was 0.625% of the Fund's average daily net assets.

b. Administrative Fees

Under an agreement with Advisers, FT Services provides administrative services to the Fund. The fee is paid by Advisers based on the Fund's average daily net assets, and is not an additional expense of the Fund.

c. Distribution Fees

The Board has adopted distribution plans for Class 2 and Class 4 shares pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's compensation distribution plans, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to 0.25% and 0.35% per year of its average daily net assets of Class 2 and Class 4, respectively. The plan year, for purposes of monitoring compliance with the maximum annual plan rates, is February 1 through January 31.

d. Transfer Agent Fees

Investor Services, under terms of an agreement, performs shareholder servicing for the Fund and is not paid by the Fund for the services.

e. Investments in Affiliated Management Investment Companies

The Fund invests in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund's outstanding shares or has the power to exercise control over management or policies of such fund. The Fund does not invest for purposes of exercising a controlling influence over the management or policies. Management fees paid by the Fund are waived on assets invested in the affiliated management investment companies, as noted in the Statement of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by each affiliate. During the period ended June 30, 2022, the Fund held investments in affiliated management investment companies as follows:

4. Expense Offset Arrangement

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended June 30, 2022, the custodian fees were reduced as noted in the Statement of Operations.

5. Income Taxes

For tax purposes, capital losses may be carried over to offset future capital gains.

At December 31, 2021, the capital loss carryforwards were as follows:

Capital loss carryforwards not subject to expiration:

Short term	\$381,451
Long term	49,000,530
Total capital loss carryforwards	\$49,381,981

At June 30, 2022, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$364,886,296
Unrealized appreciation	\$5,777,730
Unrealized depreciation	(49,928,592)
Net unrealized appreciation (depreciation)	\$(44,150,862)

5. Income Taxes (continued)

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of foreign currency transactions, paydown losses, bond discounts and premiums, swaps, financial futures transactions and transfer in-kind.

6. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the period ended June 30, 2022, aggregated \$84,340,015 and \$95,000,774, respectively.

7. Credit Risk and Defaulted Securities

At June 30, 2022, the Fund had 29.3% of its portfolio invested in high yield, senior secured floating rate loans, or other securities rated below investment grade and unrated securities, if any. These securities may be more sensitive to economic conditions causing greater price volatility and are potentially subject to a greater risk of loss due to default than higher rated securities.

The Fund held a defaulted security and/or other securities for which the income has been deemed uncollectible. At June 30, 2022, the value of this security was \$1,281,898, representing 0.4% of the Fund's net assets. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. The security has been identified in the accompanying Schedule of Investments.

8. Geopolitical Risk

On February 24, 2022, Russia engaged in military actions in the sovereign territory of Ukraine. The current political and financial uncertainty surrounding Russia and Ukraine may increase market volatility and the economic risk of investing in securities in these countries and may also cause uncertainty for the global economy and broader financial markets. The ultimate fallout and long-term impact from these events are not known. The Fund will continue to assess the impact on valuations and liquidity and will take any potential actions needed in accordance with procedures approved by the Board.

9. Novel Coronavirus Pandemic

The global outbreak of the novel coronavirus disease, known as COVID-19, has caused adverse effects on many companies, sectors, nations, regions and the markets in general, and may continue for an unpredictable duration. The effects of this pandemic may materially impact the value and performance of the Fund, its ability to buy and sell fund investments at appropriate valuations and its ability to achieve its investment objectives.

10. Restricted Securities

The Fund invests in securities that are restricted under the Securities Act of 1933 (1933 Act). Restricted securities are often purchased in private placement transactions, and cannot be sold without prior registration unless the sale is pursuant to an exemption under the 1933 Act. Disposal of these securities may require greater effort and expense, and prompt sale at an acceptable price may be difficult. The Fund may have registration rights for restricted securities. The issuer generally incurs all registration costs.

10. Restricted Securities (continued)

At June 30, 2022, investments in restricted securities, excluding securities exempt from registration under the 1933 Act, were as follows:

	Acquisition						
Shares	Issuer	Date	Cost	Value			
Franklin Strategic I	ncome VIP Fund						
14,792,309	^a K2016470219 South Africa Ltd., A	2/01/17	\$114,768	\$—			
1,472,041	^a K2016470219 South Africa Ltd., B	2/01/17	1,093	_			
6,620	Riviera Resources Inc	8/08/18	98,638	_			
	Total Restricted Securities (Value is —% of Net Assets)		\$214,499	\$—			

^aThe Fund also invests in unrestricted securities of the issuer, valued at \$— as of June 30, 2022.

11. Other Derivative Information

At June 30, 2022, investments in derivative contracts are reflected in the Statement of Assets and Liabilities as follows:

	Asset Derivatives		Liability Derivatives		
Derivative Contracts Not Accounted for as Hedging Instruments	Statement of Assets and Liabilities Location	Fair Value	Statement of Assets and Liabilities Location	Fair Value	
Franklin Strategic Income V	IP Fund				
Interest rate contracts					
	Variation margin on futures contracts	\$92,837 ^a	Variation margin on futures contracts	\$200,907°	
Foreign exchange contracts .					
	Unrealized appreciation on OTC forward exchange contracts	266,877	Unrealized depreciation on OTC forward exchange contracts	59,325	
Credit contracts					
	Variation margin on centrally cleared swap contracts	352,707 ^b	Variation margin on centrally cleared swap contracts	_	
	OTC swap contracts (upfront payments)	8,897	OTC swap contracts (upfront receipts)	908,931	
	Unrealized appreciation on OTC swap contracts	9,511	Unrealized depreciation on OTC swap contracts	1,407,960	
Total		\$730,829		\$2,577,123	

^aThis amount reflects the cumulative appreciation (depreciation) of futures contracts as reported in the Schedule of Investments. Only the variation margin receivable/payable at period end is separately reported within the Statement of Assets and Liabilities. Prior variation margin movements were recorded to cash upon receipt or payment.

^bThis amount reflects the cumulative appreciation (depreciation) of centrally cleared contracts as reported in the Schedule of Investments. Only the variation margin receivable/payable at period end is separately reported within the Statement of Assets and Liabilities. Prior variation margin movements were recorded to cash upon receipt or payment.

11. Other Derivative Information (continued)

For the period ended June 30, 2022, the effect of derivative contracts in the Statement of Operations was as follows:

				Net Change in Unrealized
Derivative Contracts		Net Realized		Appreciation
Not Accounted for as	Statement of	Gain (Loss) for	Statement of	(Depreciation)
Hedging Instruments	Operations Location	the Period	Operations Location	for the Period
Franklin Strategic Income VIP Fu	nd			
	Net realized gain (loss) from:		Net change in unrealized appreciation (depreciation) on:	
Interest rate contracts				
	Investments	\$(58,383) ^a	Investments	\$11,619ª

Credit contracts				
	Swap contracts	212,850	Swap contracts	(961,026)
Value recovery instruments	Investments	(152,700)b	Investments	(507,558) ^b
Total		\$1,408,148		\$(1,159,247)

^aPurchased option contracts are included in net realized gain (loss) from investments and net change in unrealized appreciation (depreciation) on investments in the Statement of Operations.

For the period ended June 30, 2022, the average month end notional amount of futures contracts, swap contracts and options, and the average month end contract value for forward exchange contracts, and average month end fair value of VRI, were as follows:

	Franklin Strategic Income VIP Fund
Futures contracts	\$30,605,914
Swap Contracts	19,198,285
Forward exchange contracts	10,911,494
Options	2,393,996
VRI	267,597

^bVRI are included in net realized gain (loss) from investments and net change in unrealized appreciation (depreciation) on investments in the Statement of Operations.

11. Other Derivative Information (continued)

At June 30, 2022, the Fund's OTC derivative assets and liabilities are as follows:

Gross Amounts of Assets and Liabilities Presented in the Statement of Assets and Liabilities

	Assets ^a	Liabilities ^a	
Franklin Strategic Income VIP Fund			
Derivatives			
Forward exchange contracts	\$266,877	\$59,325	
Swap contracts	18,408	2,316,891	
Total	\$285,285	\$2,376,216	

^aAbsent an event of default or early termination, OTC derivative assets and liabilities are presented gross and not offset in the Statement of Assets and Liabilities.

At June 30, 2022, OTC derivative assets, which may be offset against OTC derivative liabilities and collateral received from the counterparty, are as follows:

		Ame Stateme			
	Gross Amounts of Assets Presented in the Statement of Assets and Liabilities	Financial Instruments Available for Offset	Financial Instruments Collateral Received	Cash Collateral Received	Net Amount (Not less than zero)

See Note 1(e) regarding derivative financial instruments.

See Abbreviations on page FSI-67.

12. Credit Facility

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton, are borrowers in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (Global Credit Facility) which matures on February 3, 2023. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.15% based upon the unused portion of the Global Credit Facility. These fees are reflected in other expenses in the Statement of Operations. During the period ended June 30, 2022, the Fund did not use the Global Credit Facility.

13. Fair Value Measurements

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

- Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)

13. Fair Value Measurements (continued)

• Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of June 30, 2022, in valuing the Fund's assets and liabilities carried at fair value, is as follows:

	Level 1	Level 2	Level 3	Total

^aPurchases include all purchases of securities and securities received in corporate actions.

Significant unobservable valuation inputs for material Level 3 assets and/or liabilities and impact to fair value as a result of changes in unobservable valuation inputs as of June 30, 2022, are as follows:

Fair Value at End of Period	Valuation Technique	Unobservable Inputs	Amount / Range (Weighted Average) ^a	Impact to Fair Value if Input Increases ^b
\$8,804,191	Discounted cash flow	Loss-adjusted discount rate	2.4% - 10.9% (8.2%)	Decrease ^c
		Projected loss rate	13.8% – 19.6% (17.3%)	Decrease
434,769	l,e			
\$9,238,960				
	at End of Period \$8,804,191 434,769	at End of Period Valuation Technique \$8,804,191 Discounted cash flow 434,769 ^{d,e}	at End of Period Valuation Technique Unobservable Inputs \$8,804,191 Discounted cash flow Loss-adjusted discount rate Projected loss rate 434,769d.e	Fair Value at End of Period Valuation Technique Unobservable Inputs (Weighted Average)a \$8,804,191 Discounted cash flow discount rate Projected loss rate 434,769de

^a Weighted based on the relative fair value of the financial instruments.

bSales include all sales of securities, maturities, paydowns and securities tendered in corporate actions.

clncludes securities determined to have no value.

13. Fair Value Measurements (continued)

- b Represents the directional change in the fair value of the Level 3 financial instruments that would result from a significant and reasonable increase in the corresponding input. A significant and reasonable decrease in the input would have the opposite effect. Significant impacts, if any, to fair value and/or net assets have been indicated.
- ° Represents a significant impact to fair value and net assets.
- d Includes financial instruments with values derived using private transaction prices or non-public third party pricing information which is unobservable. May also include fair value of immaterial financial instruments and developed using various valuation techniques and unobservable inputs.
- ^e Includes securities determined to have no value at June 30, 2022.

14. New Accounting Pronouncements

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 for certain LIBOR settings and 2023 for the remainder. The ASUs are effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

In June 2022, FASB issued ASU No. 2022-03, Fair Value Measurement (Topic 820) – Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions. The amendments in the ASU clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, should not be considered in measuring fair value. The ASU is effective for interim and annual reporting periods beginning after December 15, 2023, with the option of early adoption. Management is currently evaluating the impact, if any, of applying this ASU.

15. Subsequent Events

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure.

See www.franklintempletondatasources.com for additional data provider information.

Bloomberg 1-3 Month U.S. Treasury Bill Index measures the performance of U.S. Treasury bills that have a remaining maturity of greater than or equal to one month and less than three months. Treasuries, if held to maturity, offer a fixed rate of return and a fixed principal value; their interest payments and principal are guaranteed.

Bloomberg U.S. Aggregate Bond Index measures the performance of the investment-grade, U.S. dollar-denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities and commercial mortgage-backed securities (agency and nonagency).

Bloomberg U.S. Corporate Bond Index measures the performance of the investment-grade, fixed-rate, taxable corporate bond market. It includes U.S. dollar-denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers.

Bloomberg U.S. Corporate High Yield Bond Index measures the performance of the U.S. dollar-denominated, high-yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and Standard & Poor's is Ba1/BB+/BB+ or below. Bonds from issuers with an emerging markets (EM) country of risk, based on Bloomberg EM country definition, are excluded.

Bloomberg U.S. Government - Intermediate Index is the intermediate component of the Bloomberg U.S. Government Index, which includes U.S. dollar-denominated, fixed-rate, nominal U.S. Treasuries and U.S. agency debentures (securities issued by U.S. government-owned or government-sponsored entities, and debt explicitly guaranteed by the U.S. government).

Bloomberg U.S. High Yield Very Liquid Index is a component of the U.S. Corporate High Yield Index that is designed to track a more liquid component of the U.S. dollar-denominated, high-yield, fixed-rate corporate bond market.

Bloomberg U.S. Mortgage-Backed Securities (MBS) Index tracks the performance of fixed-rate agency mortgage-backed pass-through securities guaranteed by Ginnie Mae (GNMA), Fannie Mae (FNMA) and Freddie Mac (FHLMC). Effective June 1, 2017, hybrid adjustable-rate mortgages were removed from the index.

Bloomberg U.S. Treasury Index measures the performance of U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury with at least one year until final maturity. Treasuries, if held to maturity, offer a fixed rate of return and a fixed principal value; their interest payments and principal are guaranteed.

FTSE® EPRA®/NAREIT® Developed Index is a free floatadjusted index designed to measure the performance of publicly traded real estate securities in the North American, European and Asian real estate markets.

FTSE World Government Bond Index measures the performance of fixed-rate, local currency, investment-grade sovereign bonds and is stated in U.S. dollar terms.

J.P. Morgan (JPM) Global Government Bond Index (GGBI) tracks total returns for liquid, fixed-rate, domestic government bonds with maturities greater than one year issued by developed countries globally.

MSCI All Country Asia Index-NR is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of developed and emerging markets in Asia.

MSCI All Country World Index (ACWI)-NR is a free floatadjusted, market capitalization-weighted index designed to measure the equity market performance of global developed and emerging markets. MSCI All Country World Index (ACWI) ex USA Index-NR is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed and emerging markets, excluding the U.S.

MSCI Emerging Markets (EM) Index-NR is a free floatadjusted, market capitalization-weighted index designed to measure the equity market performance of global emerging markets.

MSCI Europe Index-NR is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of developed markets in Europe.

MSCI USA High Dividend Yield Index is based on the MSCI USA Index, its parent index, and includes large- and mid-capitalization stocks. The index is designed to reflect the performance of equities in the parent index (excluding real estate investment trusts) with higher dividend income and quality characteristics than average dividend yields that are both sustainable and persistent.

MSCI USA Index is designed to measure the performance of the large- and mid-capitalization segments of the U.S. market. With 627 constituents, the index covers approximately 85% of the free float adjusted market capitalization in the U.S.

MSCI World ex USA Index-NR is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed markets, excluding the U.S.

MSCI World Value Index-NR is a free float-adjusted, market capitalization-weighted index designed to measure the performance of stocks exhibiting overall value style characteristics in global developed markets.

Russell 1000® Growth Index is market capitalization weighted and measures the performance of those Russell 1000® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

Russell 1000® Index is market capitalization weighted and measures the performance of the approximately 1,000 largest companies in the Russell 3000® Index, which represents the majority of the U.S. market's total capitalization.

Russell 1000® Value Index is market capitalization weighted and measures the performance of those Russell 1000® Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

Russell 2000® Index is market capitalization weighted and measures the performance of the approximately 2,000 smallest companies in the Russell 3000® Index that represent a small amount of the total market capitalization of the Russell 3000® Index.

Russell 2000® Value Index is market capitalization weighted and measures the performance of those Russell 2000® Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

Russell 2500[™] Index is market capitalization weighted and measures the performance of the approximately 2,500 smallest companies in the Russell 3000[®] Index that represent a modest amount of the Russell 3000[®] Index's total market capitalization.

Russell 3000® Index is market capitalization weighted and measures the performance of the largest 3,000 U.S. companies representing the majority of the U.S. market's total capitalization.

Russell Midcap® Growth Index is market capitalization weighted and measures the performance of those Russell Midcap® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

Russell Midcap® Index is market capitalization weighted and measures the performance of the approximately 800 smallest companies in the Russell 1000® Index that represent a modest amount of the Russell 1000® Index's total market capitalization.

Standard & Poor's® 500 Index (S&P 500®) is a market capitalization-weighted index of 500 stocks designed to measure total U.S. equity market performance.

(each a Fund)

At an in-person meeting held on April 12, 2022 (Meeting), the Board of Trustees (Board) of Franklin Templeton Variable Insurance Products Trust (Trust), including a majority of the trustees who are not "interested persons" as defined in the Investment Company Act of 1940 (Independent Trustees), reviewed and approved the continuance of the (i) investment management agreement between Franklin Advisers, Inc. (FAV) and the Trust, on behalf of each of Franklin Allocation VIP Fund, Franklin DynaTech Growth VIP Fund, Franklin Growth and Income VIP Fund, Franklin Income VIP Fund, Franklin Large Cap Growth VIP Fund, Franklin Rising Dividends VIP Fund, Franklin Small-Mid Cap Growth VIP Fund, Franklin Strategic Income VIP Fund, Franklin U.S. Government Securities VIP Fund, Franklin VolSmart Allocation VIP Fund, and Templeton Global Bond VIP Fund; (ii) the investment sub-advisory agreement between FAV and Franklin Templeton Institutional, LLC (FTIL), an affiliate of FAV, on behalf of Franklin Allocation VIP Fund; (iii) the investment sub-advisory agreement between FAV and Templeton Global Advisors Limited (TGAL), an affiliate of FAV, on behalf of Franklin Allocation VIP Fund; (iv) the investment sub-advisory agreement between FAV and Brandywine Global Investment Management, LLC (BGIM), an affiliate of FAV, on behalf of Franklin Allocation VIP Fund; (v) the investment sub-advisory agreement between FAV

and ClearBridge Investments, LLC (CIL), an affiliate of FAV, on behalf of Franklin Allocation VIP Fund; (vi) the investment sub-advisory agreement between FAV and Western Asset Management Company, LLC (WAMC), an affiliate of FAV, on behalf of Franklin Allocation VIP Fund; (vii) the investment sub-advisory agreement between FAV and Western Asset Management Company Limited (WAMCL), an affiliate of FAV, on behalf of Franklin Allocation VIP Fund; (viii) the investment management agreement between FTIL and the Trust, on behalf of Franklin Global Real Estate VIP Fund; (ix) the investment management agreement between Franklin Mutual Advisers, LLC (FMA) and the Trust, on behalf of each of Franklin Mutual Global Discovery VIP Fund, Franklin Mutual Shares VIP Fund and Franklin Small Cap Value VIP Fund; (x) the investment management agreement between Templeton Asset Management Ltd. (TAML) and the Trust, on behalf of Templeton Developing Markets VIP Fund; (xi) the investment sub-advisory agreement between TAML and Franklin Templeton Investment Management Ltd. (FTIML), on behalf of Templeton Developing Markets VIP Fund; (xii) the investment management agreement between Templeton Investment Counsel, LLC (TICL) and the Trust, on behalf of Templeton Foreign VIP Fund; and (xiii) the investment management agreement between TGAL and the Trust, on behalf of Templeton Growth VIP Fund (each a Management Agreement) for an additional one-year period. The Independent Trustees received advice from and met separately with Independent Trustee counsel in considering whether to approve the continuation of each Management Agreement. Although the Management Agreements for the Funds were considered at the same Board meeting, the Board considered the information provided to it about the Funds together and with respect to each Fund separately as the Board deemed appropriate. BGIM, CIL, FAV, FTIL, FTIML, FMA, TAML, TICL, TGAL, WAMC and WAMCL are each referred to herein as a Manager.

In considering the continuation of each Management Agreement, the Board reviewed and considered information provided by each Manager at the Meeting and throughout the year at meetings of the Board and its committees. The Board also reviewed and considered information provided in response to a detailed set of requests for information submitted to each Manager by Independent Trustee counsel on behalf of the Independent Trustees in connection with the annual contract renewal process. In addition, prior to the Meeting, the Independent Trustees held a virtual contract renewal meeting at which the Independent Trustees first conferred amongst themselves and Independent Trustee counsel about contract renewal matters; and then met

with management to request additional information that the Independent Trustees reviewed and considered at the Meeting. The Board reviewed and considered all of the factors it deemed relevant in approving the continuance of each Management Agreement, including, but not limited to: (i) the nature, extent and quality of the services provided by each Manager; (ii) the investment performance of each Fund; (iii) the costs of the services provided and profits realized by each Manager and its affiliates from the relationship with each Fund; (iv) the extent to which economies of scale are realized as each Fund grows; and (v) whether fee levels reflect these economies of scale for the benefit of Fund investors.

In approving the continuance of each Management Agreement, the Board, including a majority of the Independent Trustees, determined that the terms of each Management Agreement are fair and reasonable and that the continuance of such Management Agreement is in the best interests of the applicable Fund and its shareholders. While attention was given to all information furnished, the following discusses some primary factors relevant to the Board's determination.

Nature, Extent and Quality of Services

The Board reviewed and considered information regarding the nature, extent and quality of investment management services provided by each Manager and its affiliates to the Funds and their shareholders. This information included, among other things, the qualifications, background and experience of the senior management and investment personnel of each Manager; as well as information on succession planning where appropriate; the structure of investment personnel compensation; oversight of thirdparty service providers; investment performance reports and related financial information for each Fund; reports on expenses and shareholder services; legal and compliance matters; risk controls; pricing and other services provided by each Manager and its affiliates; and management fees charged by each Manager and its affiliates to US funds and other accounts, including management's explanation of differences among accounts where relevant. The Board also reviewed and considered an annual report on payments made by Franklin Templeton (FT) or the Funds to financial intermediaries, as well as a memorandum relating to thirdparty servicing arrangements, which included discussion of the changing distribution landscape for the Funds. The Board acknowledged the ongoing integration of the Legg Mason family of funds into the FT family of funds and developing strategies to address areas of heightened concern in the mutual fund industry, including various regulatory initiatives and recent geopolitical concerns.

The Board also reviewed and considered the benefits provided to Fund shareholders of investing in a fund that is part of the FT family of funds. The Board noted the financial position of Franklin Resources, Inc. (FRI), the Managers' parent, and its commitment to the mutual fund business as evidenced by its reassessment of the fund offerings in response to the market environment and project initiatives and capital investments relating to the services provided to the Funds by the FT organization. The Board specifically noted FT's commitment to being a global leader in stewardship and sustainability and the recent addition of a senior executive focused on environmental, social and governance and climate control initiatives.

Following consideration of such information, the Board was satisfied with the nature, extent and quality of services provided by each Manager and its affiliates to the Funds and their shareholders.

Fund Performance

The Board reviewed and considered the performance results of each Fund over various time periods ended January 31, 2022. The Board considered the performance returns for each Fund in comparison to the performance returns of mutual funds deemed comparable to the Fund included in a universe (Performance Universe) selected by Broadridge Financial Solutions, Inc. (Broadridge), an independent provider of investment company data. The Board received a description of the methodology used by Broadridge to select the mutual funds included in a Performance Universe. The Board also reviewed and considered Fund performance reports provided and discussions that occurred with portfolio managers at Board meetings throughout the year. A summary of each Fund's performance results is below.

Franklin Allocation VIP Fund - The Performance Universe for the Fund included the Fund and all mixed-asset target allocation growth funds underlying variable insurance products (VIPs). The Board noted that the Fund's annualized income return for the one-, three-, five- and 10-year periods was above the median of its Performance Universe. The Board also noted that the Fund's annualized total return for the one-, three-, five- and 10-year periods was below the median of its Performance Universe. The Board discussed the Fund's performance with management and management explained that the Fund maintains a strategic equity asset allocation that is on the lower end of its peers that comprise the Performance Universe, which has negatively impacted the Fund's relative returns in a risk-on market environment in recent years. Management reminded the Board that, effective May 1, 2019, the Fund was repositioned to a direct investment fund with an actively managed allocation strategy which is not reflected in the Fund's longer-term performance. Management then discussed with the Board the actions that are being taken in an effort to address the sources of the Fund's underperformance, including enhancements made to the Fund's investment strategies. The Board concluded that the Fund's Management Agreement should be continued for an additional one-year period, and management's efforts should continue to be closely monitored.

Franklin Income VIP Fund - The Performance Universe for the Fund included the Fund and all flexible portfolio funds underlying VIPs. The Board noted that the Fund's annualized income return for the one-, three-, five- and 10-year periods was above the median of its Performance Universe. The Board also noted that the Fund's annualized total return for the one- and 10-year periods was above the median of its Performance Universe, but for the three- and five-year periods was below the median of its Performance Universe. The Board considered the income-related attributes of the Fund (such as a fund's investment objective and/or investment strategy) and that the evaluation of the Fund's performance relative to its peers on an income return basis was appropriate given the Fund's income-related attributes and investor expectations. The Board concluded that the Fund's performance was satisfactory.

Franklin Strategic Income VIP Fund and Franklin U.S. Government Securities VIP Fund - The Performance Universe for the Franklin Strategic Income VIP Fund included the Fund and all multi-sector income funds underlying VIPs. The Performance Universe for the Franklin U.S. Government Securities VIP Fund included the Fund and all intermediate US government funds underlying VIPs. The Board noted that each Fund's annualized income return for the one-, three-, five- and 10-year periods was above the median of its respective Performance Universe. The Board also noted that each Fund's annualized total return for the three-, five- and 10-year periods was below the median of its respective Performance Universe, but for the one-year period was above the median of the Fund's respective Performance Universe. The Board further noted the Franklin U.S. Government Securities VIP Fund's conservative policy of investing substantially all of its assets in Ginnie Mae obligations. The Board considered the income-related attributes of each Fund (such as a fund's investment objective and/or investment strategy) and that the evaluation of the Fund's performance relative to its peers on an income return basis was appropriate given the Fund's incomerelated attributes and investor expectations. The Board concluded that each Fund's performance was satisfactory.

Templeton Global Bond VIP Fund - The Performance Universe for the Fund included the Fund and all global income funds underlying VIPs. The Board noted that the Fund's annualized income return for the three-, five- and 10-year periods was above the median of its Performance Universe, but for the one-year period was below the median of its Performance Universe. The Board also noted that the Fund's annualized total return for the three-, five-, and 10-year periods was below the median of its Performance Universe, but for the one-year period was equal to the median of its Performance Universe. The Board discussed this performance with management and management explained that the Fund's relative underperformance in comparison to its Performance Universe over the three- and five-year reporting periods was largely due to the Fund's performance in 2019 and 2020. Management further explained that the underperformance was driven by the Fund's defensive positioning amid the pandemic, which restrained the Fund's participation in the risk asset rallies in the second half of 2020. Management also explained that the Fund's long exposure to emerging market local currency assets and short exposure to US Treasury duration during the three- and five-year reporting periods detracted from the Fund's relative performance versus the Performance Universe. Management further explained that after vaccines were approved toward the end of 2020 management significantly repositioned the Fund's strategies back towards risk allocations and expanded on that risk positioning throughout 2021, emphasizing specific currencies against the US dollar and the euro, as well as local currency bonds in a select set of emerging markets. Management further explained the steps the portfolio management team is taking in an effort to improve the Fund's peer rankings across all reporting periods and reduce the impact of the Fund's relative underperformance in 2019 and 2020. The Board noted management's continued confidence in the Fund's portfolio management team, commitment to an enhanced investment process for the benefit of Fund shareholders and commitment to have ongoing conversations with the Board regarding management's strategies for addressing the performance of the global macro funds as a whole. Based on the foregoing, the Board concluded that the Fund's Management Agreement should be continued for an additional one-year period, and that management's efforts and the recent improved performance of the Fund should continue to be closely monitored.

Franklin Growth and Income VIP Fund - The Performance Universe for the Fund included the Fund and all equity income funds underlying VIPs. The Board noted that the Fund's annualized income return and annualized total return for the one-, three-, five- and 10-year periods were above the medians of its Performance Universe. The Board concluded that the Fund's performance was satisfactory.

Franklin DynaTech VIP Fund, Franklin Mutual Shares VIP Fund, Templeton Foreign VIP Fund and Templeton Growth VIP Fund - The Performance Universe for the Franklin DynaTech VIP Fund included the Fund and all large-cap growth funds underlying VIPs. The Performance Universe for the Franklin Mutual Shares VIP Fund included the Fund and all multi-cap value funds underlying VIPs. The Performance Universe for the Templeton Foreign VIP Fund included the Fund and all international multi-cap value funds underlying VIPs. The Performance Universe for the Templeton Growth VIP Fund included the Fund and all global multi-cap value funds underlying VIPs. The Board noted that each Fund's annualized total return for the one-, three-, five and 10-year periods was below the median of its respective Performance Universe. The Board further noted that, effective May 1, 2021, the Franklin DynaTech VIP Fund changed its name, investment strategy, and primary benchmark to align with the Franklin DynaTech Fund and that it would need more time to assess the implication of these changes on Fund performance.

The Board also noted management's explanation that the Franklin Mutual Shares VIP Fund's underperformance in 2017 was material and continues to adversely impact the Fund's ranking over longer-term periods. Management reminded the Board of the primary factors that impacted the 2017 performance, including, among factors, exposure to non-US equities and stock selection. Management explained that the Fund has a more value oriented tilt and underweight position in US securities as compared to its Performance Universe, both of which detracted from the Fund's relative performance during a period of historic and sustained outperformance of growth over value. Management further explained that key detractors from the Fund's three-year performance included the Fund's stock selection in the financials and industrials sectors and the Fund's underweight position in the industrials sector. Management reviewed with the Board ongoing enhancements to the Fund's investment team and processes in an effort to improve performance.

The Board discussed Templeton Foreign VIP Fund's performance with management and management explained the Fund's relative performance over the reporting periods was negatively impacted by the Fund's overweight positions in cash and the information technology and energy sectors,

and underweight positions in the financials, consumer staples and communication services sectors as compared to the Performance Universe. Management then noted that the Fund outperformed its benchmark, the MSCI All Country World ex-US Index-NR, for the one-year period, more than doubling the gains of the index. Management discussed with the Board the actions that are being taken in an effort to improve the performance of the Fund and the global equity funds as a whole. Management specifically highlighted the strategic initiatives being undertaken in the Templeton Global Equity Group, including enhancements to the leadership of the group and the commitment of additional resources important to delivering sustainable returns.

The Board discussed Templeton Growth VIP Fund's performance with management and management explained that the Fund's relative performance over the reporting periods was negatively impacted by the Fund's overweight positions in cash and the consumer discretionary sector and underweight position in the financials sector as compared to the Performance Universe. Management also explained that the Fund's one-year relative underperformance was primarily attributable to stock-specific weakness and underweight allocations in the US market and the information technology sector. Management then discussed with the Board the actions that are being taken in an effort to improve the performance of the Fund and the global equity funds as a whole. Management specifically highlighted the strategic initiatives being undertaken in the Templeton Global Equity Group, including enhancements to the leadership of the group and the commitment of additional resources important to delivering sustainable returns.

The Board concluded that the Funds' Management Agreements should be continued for an additional one-year period, and management's efforts should continue to be closely monitored.

Franklin Global Real Estate VIP Fund - The Performance Universe for the Fund included the Fund and all global real estate funds underlying VIPs. The Board noted that the Fund's annualized total return for the one- and 10-year periods was above the median of its Performance Universe, but for the three- and five-year periods was below the median of its Performance Universe. The Board further noted that, while below the median, the Fund's three- and five-year annualized total returns were 7.98% and 7.55%, respectively. The Board concluded that the Fund's performance was satisfactory.

<u>Franklin Large Cap Growth VIP Fund</u> - The Performance Universe for the Franklin Large Cap Growth VIP Fund included the Fund and all multi-cap growth funds underlying VIPs. The Board noted that the Fund's annualized total return for the one-, three- and five-year periods was above the median of its Performance Universe, but for the 10-year period was below the median of its Performance Universe. The Board concluded that the Fund's performance was satisfactory.

Templeton Developing Markets VIP Fund and Franklin Small Cap Value VIP Fund - The Performance Universe for the Templeton Developing Markets VIP Fund included the Fund and all emerging markets funds underlying VIPs. The Performance Universe for the Franklin Small Cap Value VIP Fund included the Fund and all small-cap value funds underlying VIPs. The Board noted that each Fund's annualized total return for the three-, five and 10-year periods was above the median of its respective Performance Universe, but for the one-year period was below the median of its respective Performance Universe (noting the one-year annualized total return for the Franklin Small Cap Value VIP Fund exceeded 20%). The Board concluded that each Fund's performance was satisfactory.

Franklin Mutual Global Discovery VIP Fund - The Performance Universe for the Fund included the Fund and all global multi-cap value funds underlying VIPs. The Board noted that the Fund's annualized total return for the one-, three- and 10-year periods was above the median of its Performance Universe, but for the five-year period was below the median of its Performance Universe. The Board concluded that the Fund's performance was satisfactory.

Franklin Rising Dividends VIP Fund - The Performance Universe for the Fund included the Fund and all large-cap core funds underlying VIPs. The Board noted that the Fund's annualized total return for the one- and three-year periods was above the median of its Performance Universe, but for the five- and 10-year periods was below the median of its Performance Universe. The Board further noted that, while below the median, the Fund's five- and 10-year annualized total returns were 15.42% and 13.68%, respectively. The Board concluded that the Fund's performance was satisfactory.

Franklin VolSmart Allocation VIP Fund - The Performance Universe for the Fund included the Fund and all flexible portfolio funds underlying VIPs. The Board noted that the Fund incepted on April 1, 2013 and has been in operation for less than 10 years. The Board further noted that its annualized total return for the one-, three- and five-year periods was above the median and in the first quintile (best)

of its Performance Universe. The Board also noted that its annualized income return for the one- and three-year periods was above the median of its Performance Universe, but for the five-year period was below the median of its Performance Universe. The Board concluded that the Fund's performance was satisfactory.

Franklin Small-Mid Cap Growth VIP Fund – The Performance Universe for the Fund included the Fund and all mid-cap growth funds underlying VIPs. The Board noted that the Fund's annualized total return for the one- and 10-year periods was below the median of its Performance Universe, but for the three- and five-year periods was above the median of its Performance Universe and exceeded 16.35%. The Board concluded that the Fund's performance was acceptable.

Comparative Fees and Expenses

The Board reviewed and considered information regarding each Fund's actual total expense ratio and its various components, including, as applicable, management fees; transfer agent expenses; underlying fund expenses; Rule 12b-1 and non-Rule 12b-1 service fees; and other nonmanagement fees. The Board also noted the quarterly and annual reports it receives on all marketing support payments made by FT to financial intermediaries. The Board considered the actual total expense ratio and, separately, the contractual management fee rate, without the effect of fee waivers, if any (Management Rate) of each Fund in comparison to the median expense ratio and median Management Rate, respectively, of other mutual funds deemed comparable to and with a similar expense structure to the Fund selected by Broadridge (Expense Group). Broadridge fee and expense data is based upon information taken from each fund's most recent annual or semi-annual report, which reflects historical asset levels that may be quite different from those currently existing, particularly in a period of market volatility. While recognizing such inherent limitation and the fact that expense ratios and Management Rates generally increase as assets decline and decrease as assets grow, the Board believed the independent analysis conducted by Broadridge to be an appropriate measure of comparative fees and expenses. The Broadridge Management Rate includes administrative charges. The Board received a description of the methodology used by Broadridge to select the mutual funds included in an Expense Group.

Franklin Allocation VIP Fund, Franklin Growth and Income
VIP Fund, Franklin Income VIP Fund, Franklin Small Cap
Value VIP Fund, Templeton Global Bond VIP Fund, Franklin
DynaTech VIP Fund, Franklin Rising Dividends VIP Fund
and Franklin Small-Mid Cap Growth VIP Fund – The

Expense Group for the Franklin Allocation VIP Fund included the Fund and 10 other mixed-asset target allocation growth funds underlying VIPs. The Expense Group for the Franklin Growth and Income VIP Fund included the Fund and 11 other equity income funds underlying VIPs. The Expense Group for the Franklin Income VIP Fund included the Fund and 11 other flexible portfolio funds underlying VIPs. The Expense Group for the Franklin Small Cap Value VIP Fund included the Fund and eight other small-cap value funds underlying VIPs. The Expense Group for the Templeton Global Bond VIP Fund included the Fund and 10 other global income funds underlying VIPs. The Expense Group for the Franklin DynaTech VIP Fund included the Fund and 12 other large-cap growth funds underlying VIPs. The Expense Group for the Franklin Rising Dividends VIP Fund included the Fund and 11 other large-cap core funds underlying VIPs. The Expense Group for the Franklin Small-Mid Cap Growth VIP Fund included the Fund and 11 other mid-cap growth funds underlying VIPs. The Board noted that the Management Rate and actual total expense ratio for each Fund were below the medians of its respective Expense Group. The Board also noted that the Franklin Allocation VIP Fund, Franklin DynaTech VIP Fund and Franklin Growth and Income VIP Fund's actual total expense ratio reflected a fee waiver from management. The Board further noted that the Franklin Allocation VIP Fund's sub-advisers are paid by FAV out of the management fee FAV receives from the Fund and that the allocation of the fee between FAV and each sub-adviser reflected the services provided by each to the Fund. After consideration of the above, the Board concluded that the Management Rate charged to each Fund and the sub-advisory fee paid to each sub-adviser of the Franklin Allocation VIP Fund are reasonable.

Franklin U.S. Government Securities VIP Fund - The Expense Group for the Fund included the Fund, three other intermediate US government funds underlying VIPs and 11 inflation-protected bond funds underlying VIPs. The Board noted that the Management Rate for the Fund was below the median of its Expense Group, and the actual total expense ratio for the Fund was slightly above the median of its Expense Group. The Board concluded that the Management Rate charged to the Fund is reasonable.

funds underlying VIPs. The Expense Group for the Franklin Mutual Global Discovery VIP Fund included the Fund, one other global multi-cap value fund underlying VIPs, two global multi-cap core funds underlying VIPs, and two global multi-cap growth funds underlying VIPs. The Expense Group for the Franklin Mutual Shares VIP Fund included the Fund and 12 other multi-cap value funds underlying VIPs. The Expense Group for the Templeton Developing Markets VIP Fund included the Fund and 13 other emerging markets funds underlying VIPs. The Expense Group for the Templeton Growth VIP Fund included the Fund, one other global multi-cap value fund underlying VIPs, two global multicap core funds underlying VIPs, and two global multi-cap growth funds underlying VIPs. The Expense Group for the Templeton Foreign VIP Fund included the Fund, nine other international multi-cap value funds underlying VIPs and four international large-cap value funds underlying VIPs. The Expense Group for the Franklin Large Cap Growth VIP Fund included the Fund and 11 other multi-cap growth funds underlying VIPs. The Expense Group for the Franklin VolSmart Allocation VIP Fund included the Fund, three other flexible portfolio funds underlying VIPs, and three mixedasset target allocation growth fund underlying VIPs. The Expense Group for the Franklin Strategic Income VIP Fund included the Fund and nine other multi-sector income funds underlying VIPs. The Board noted that the Management Rate and actual total expense ratio for each Fund were above the median of its respective Expense Group.

With respect to the Franklin Mutual Global Discovery VIP Fund, the Board noted management's explanation that the portfolio management team makes investments in the debt and equity of distressed companies and merger arbitrage securities that are specialized in nature and therefore require additional expertise and resources, whereas the Fund's Expense Group generally does not make such investments. With respect to the Franklin Large Cap Growth VIP Fund, Franklin Mutual Shares VIP Fund, Franklin Strategic Income VIP Fund and Templeton Developing Markets VIP Fund, the Board noted that each Fund's Management Rate and actual total expense ratio were less than 5 basis points above the respective median of the Fund's Expense Group. With respect to each of the Templeton Foreign VIP Fund and the Templeton Growth VIP Fund, the Board noted management's explanation that the Expense Group for each Fund is not directly comparable to the Fund because funds that comprise the Expense Group have a higher allocation to domestic equity than the Fund. Management further explained that when each Fund is compared to a subset of its Expense Group that has a smaller allocation to domestic equity similar to the Fund, the Fund's actual total expense ratio is more aligned with peers. The Board

discussed with management the expenses of both of these Funds and management agreed to implement a reduction in the Management Rate for the Templeton Foreign VIP Fund and implement an expense cap on the Templeton Growth VIP Fund's actual total expense ratio of 0.87%, effective May 1, 2022. The Board also noted that the Franklin VolSmart Allocation VIP Fund's actual total expense ratio reflected a fee waiver from management. The Board further noted that the Templeton Developing Markets VIP Fund's sub-adviser is paid by TAML out of the management fee TAML receives from the Fund and that the allocation of the fee between TAML and the sub-adviser reflected the services provided by each to the Fund. After consideration of the above, the Board concluded that the Management Rate charged to each Fund and the sub-advisory fee paid to the Templeton Developing Markets VIP Fund's sub-adviser are reasonable.

Profitability

The Board reviewed and considered information regarding the profits realized by each Manager and its affiliates in connection with the operation of each Fund. In this respect, the Board considered the Fund profitability analysis that addresses the overall profitability of FT's US fund business, as well as its profits in providing investment management and other services to each of the individual funds during the 12-month period ended September 30, 2021, being the most recent fiscal year-end for FRI. The Board noted that although management continually makes refinements to its methodologies used in calculating profitability in response to organizational and product-related changes, the overall methodology has remained consistent with that used in the Funds' profitability report presentations from prior years. The Board also noted that PricewaterhouseCoopers LLP, auditor to FRI and certain FT funds, has been engaged to periodically review and assess the allocation methodologies to be used solely by the Funds' Board with respect to the profitability analysis.

The Board noted management's belief that costs incurred in establishing the infrastructure necessary for the type of mutual fund operations conducted by each Manager and its affiliates may not be fully reflected in the expenses allocated to each Fund in determining its profitability, as well as the fact that the level of profits, to a certain extent, reflected operational cost savings and efficiencies initiated by management. As part of this evaluation, the Board considered management's outsourcing of certain operations, which effort has required considerable up-front expenditures by the Managers but, over the long run is expected to result in greater efficiencies. The Board also noted management's expenditures in improving shareholder services provided to

the Funds, as well as the need to implement systems and meet additional regulatory and compliance requirements resulting from recent US Securities and Exchange Commission and other regulatory requirements.

The Board also considered the extent to which each Manager and its affiliates might derive ancillary benefits from fund operations, including revenues generated from transfer agent services, potential benefits resulting from personnel and systems enhancements necessitated by fund growth, as well as increased leverage with service providers and counterparties. Based upon its consideration of all these factors, the Board concluded that the level of profits realized by each Manager and its affiliates from providing services to each Fund was not excessive in view of the nature, extent and quality of services provided to each Fund.

Economies of Scale

The Board reviewed and considered the extent to which each Manager may realize economies of scale, if any, as each Fund grows larger and whether each Fund's management fee structure reflects any economies of scale for the benefit of shareholders. With respect to possible economies of scale, the Board noted the existence of management fee breakpoints for each Fund (except for the Franklin Allocation VIP Fund and the Franklin VolSmart Allocation VIP Fund), which operate generally to share any economies of scale with a Fund's shareholders by reducing the Fund's effective management fees as the Fund grows in size. The Board considered management's view that any analyses of potential economies of scale in managing a particular fund are inherently limited in light of the joint and common costs and investments each Manager incurs across the FT family of funds as a whole. The Board concluded that to the extent economies of scale may be realized by each Manager and its affiliates, each Fund's management fee structure (except for the Franklin Allocation VIP Fund and the Franklin VolSmart Allocation VIP Fund) provided a sharing of benefits with the Fund and its shareholders as the Fund grows. The Board recognized that there would not likely be any economies of scale for the Franklin DynaTech VIP Fund, Franklin Global Real Estate VIP Fund, Franklin Growth and Income VIP Fund, Franklin Large Cap Growth VIP Fund and Franklin VolSmart Allocation VIP Fund until each Fund's assets grow. The Board also recognized that given the decline in assets over the past three calendar years for each of the Franklin Income VIP Fund, Franklin Mutual Shares VIP Fund, Franklin Strategic Income VIP Fund, Franklin U.S. Government Securities VIP Fund, Templeton Global Bond VIP Fund and Templeton Growth VIP Fund, these Funds are not expected to experience additional economies of scale in the foreseeable future. The Board concluded that

to the extent economies of scale may be realized by each Manager and its affiliates, each Fund's management fee structure provided a sharing of benefits with the Fund and its shareholders as the Fund grows.

Conclusion

Based on its review, consideration and evaluation of all factors it believed relevant, including the above-described factors and conclusions, the Board unanimously approved the continuation of each Management Agreement for an additional one-year period.

Liquidity Risk Management Program

Each Fund has adopted and implemented a written Liquidity Risk Management Program (the "LRMP") as required by Rule 22e-4 under the Investment Company Act of 1940 (the "Liquidity Rule"). The LRMP is designed to assess and manage each Fund's liquidity risk, which is defined as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors' interests in the Fund. In accordance with the Liquidity Rule, the LRMP includes policies and procedures that provide for: (1) assessment, management, and review (no less frequently than annually) of each Fund's liquidity risk; (2) classification of each Fund's portfolio holdings into one of four liquidity categories (Highly Liquid, Moderately Liquid, Less Liquid, and Illiquid); (3) for Funds that do not primarily hold assets that are Highly Liquid, establishing and maintaining a minimum percentage of the Fund's net assets in Highly Liquid investments (called a "Highly Liquid Investment Minimum" or "HLIM"); and (4) prohibiting the Fund's acquisition of Illiquid investments that would result in the Fund holding more than 15% of its net assets in Illiquid assets. The LRMP also requires reporting to the Securities and Exchange Commission ("SEC") (on a non-public basis) and to the Board if the Fund's holdings of Illiquid assets exceed 15% of the Fund's net assets. Funds with HLIMs must have procedures for addressing HLIM shortfalls, including reporting to the Board and, with respect to HLIM shortfalls lasting more than seven consecutive calendar days, reporting to the SEC (on a non-public basis).

The Director of Liquidity Risk within the Investment Risk Management Group (the "IRMG") is the appointed Administrator of the LRMP. The IRMG maintains the Investment Liquidity Committee (the "ILC") to provide oversight and administration of policies and procedures governing liquidity risk management for Franklin Templeton and Legg Mason products and portfolios. The ILC includes representatives from Franklin Templeton's Risk, Trading, Global Compliance, Legal, Investment Compliance,

Investment Operations, Valuation Committee, Product Management and Global Product Strategy.

In assessing and managing each Fund's liquidity risk, the ILC considers, as relevant, a variety of factors, including the Fund's investment strategy and the liquidity of its portfolio investments during both normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources including the Funds' interfund lending facility and line of credit. Classification of the Fund's portfolio holdings in the four liquidity categories is based on the number of days it is reasonably expected to take to convert the investment to cash (for Highly Liquid and Moderately Liquid holdings) or sell or dispose of the investment (for Less Liquid and Illiquid investments), in current market conditions without significantly changing the investment's market value.

Each Fund primarily holds liquid assets that are defined under the Liquidity Rule as "Highly Liquid Investments," and therefore is not required to establish an HLIM. Highly Liquid Investments are defined as cash and any investment reasonably expected to be convertible to cash in current market conditions in three business days or less without the conversion to cash significantly changing the market value of the investment.

At meetings of the Funds' Board of Trustees held in May 2022, the Program Administrator provided a written report to the Board addressing the adequacy and effectiveness of the program for the year ended December 31, 2021. The Program Administrator report concluded that (i.) the LRMP, as adopted and implemented, remains reasonably designed to assess and manage each Fund's liquidity risk; (ii.) the LRMP, including the Highly Liquid Investment Minimum ("HLIM") where applicable, was implemented and operated effectively to achieve the goal of assessing and managing each Fund's liquidity risk; and (iii.) each Fund was able to meet requests for redemption without significant dilution of remaining investors' interests in the Fund.

Proxy Voting Policies and Procedures

The Trust's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Trust uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Trust's complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Trust's

proxy voting records are also made available online at franklintempleton.com and posted on the U.S. Securities and Exchange Commission's website at sec.gov and reflect the most recent 12-month period ended June 30.

Quarterly Schedule of Investments

The Trust files a complete schedule of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year as an exhibit to its report on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the Commission's website at sec. gov. The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.
